### Investment strategy

#### A responsible selection of French equities based on proprietary ESG analysis

Sycamore Francecap aims to outperform its benchmark index, the CAC All-Tradable NR, over a period of five years, through a multi-thematic and socially responsible investment process drawing from our proprietary "SPICE" methodology and economic and societal contribution indicators. The fund invests without sector or market capitalisation constraints in French equities we believe to be trading at a substantial discount. Depending on the manager's forecasts, a significant portion may be allocated to mid-caps.

### Performance as of 29.09.2023

	Sep	2023	1 year	3 yrs	5 yrs	Inc.*	Annu.	2022	2021	2020	2019
<b>Fund %</b>	-4.7	4.6	19.7	29.0	12.0	564.4	9.0	-10.5	23.1	-2.3	20.1
<b>Index %</b>	-2.7	11.4	25.0	51.3	36.3	233.5	5.6	-8.4	28.3	-4.9	27.8

	Corr.	Beta	Alpha	Vol.	Bench. Vol	Track. Error	Sharpe Ratio	Info Ratio	Draw Down	Bench. DD
3 years	1.0	0.9	-3.7%	16.4%	17.8%	5.1%	0.5	-1.2	-25.0%	-21.9%
<b>Inception</b>	0.9	0.7	4.6%	16.7%	21.2%	9.8%	0.5	0.3	-56.9%	-57.5%

### Fund commentary

September was a particularly challenging month for the fund as many "smid caps" came under pressure. Chargeurs lost almost one third of its market value during the period after reporting a sharp drop in earnings (operating profit down 44%). Burelle fell 13% during the month, while Plastic Omnium lost 5%, a clear indication that the illiquidity discount is deepening for smaller-sized market caps. Verallia shed over 15%, despite reporting quality half-year earnings (55% Ebitda growth). Finally, Société Générale's CMD proved costly for the fund, after Société Générale and ALD fell by 12% and 18% respectively. Analysts were disappointed by the group's new objectives for 2026. Slawomir Krupa was keen to set realistic ambitions, with a view to exceeding them.

## Societal and social analysis

### Societal contribution\*\*

Contribution of the economic activity of companies to the resolution of major societal issues, on a scale from -100% to +100%.

Coverage rate : fund 100% / index 98%

### The Good Jobs Rating - Quantity

Degree of contribution of companies to sustainable job creation - Focus on the Quantity dimension: direct, indirect and induced job creation over the last three years.

Coverage rate : fund 100% / index 100%

### Gender equality ♀/ ♂

Percentage of women in total company headcounts and executive committees.

Staff cov. rate: fund 100% / index 99%

ExecComm cov. rate: fund 100% / index 100%

## Sustainable development goals exposure

This chart represents the main exposures to the United Nations Sustainable Development Goals and their 169 targets. Exposure is defined as the opportunity, for each company, to contribute positively to reaching SDGs, providing their products and services. This exercise doesn't aim to measure the companies effective contribution to SDGs, which is computed through our societal contribution (CS) and net environmental contribution (NEC) metrics. For each invested company, activities are analysed in order to identify those which are exposed to SDGs. For a same activity, its number of targets can vary between 0 and 2. The company target exposure to one of its activities is weighted by the revenue share gained from this activity. For more details, our annual SRI report is available in our ESG documentation.

**No significant exposure : 28%**

## ESG follow-up, news and dialogue

### Dialogue and engagement

#### Sanofi

During a meeting with management, we learned that 1,800 permanent contract jobs had been created in France over the past two years, after several years of downsizing. A framework agreement on staff numbers was signed in 2022 with trade unions, for a duration of 4 years. Finally, for the 3rd year running, Sanofi is conducting an employee survey which will enable the company to detect and prevent a number of psycho-social risks.

### ESG controversies

No comment

### Votes

0 / 0 voted general assembly over the month.

### Investment strategy

#### A responsible selection of Eurozone equities based on proprietary ESG analysis

Sycomore Sélection Responsable is a conviction-driven fund which aims to deliver financial returns above those of the EuroStoxx Total Return index over a minimum investment horizon of five years, by applying a multithemed socially responsible investment process (energy transition, health, nutrition, digital, etc.) in keeping with the United Nations' Sustainable Development Goals. The fund mainly invests in the capital of quality Eurozone companies, which benefit from sustainable development opportunities and whose intrinsic valuation is believed to be above their stock market value.

### Fund commentary

Eurozone equity markets corrected in September, as spiking bond yields and oil prices skewed the overall market trend, in an environment reminiscent of what happened in 2022. However, with the end of the monetary tightening cycle in sight and with the global economy heading towards a slowdown, we feel these two stress factors are likely to wear off as investors focus their attention on corporate earnings characteristics. For this reason, the fund's exposure to banking stocks (which largely outperformed during the summer) and cyclical was reduced to strengthen defensive or growth plays, such as Coloplast, L'Oréal, Deutsche Telekom and Adyen (down by 50% since it was removed from the portfolio in January). During the month, the fund's relative performance was mainly impacted by its absence from the oil sector.

## Sustainable development goals exposure

This chart represents the main exposures to the United Nations Sustainable Development Goals and their 169 targets. Exposure is defined as the opportunity, for each company, to contribute positively to reaching SDGs, providing their products and services. This exercise doesn't aim to measure the companies effective contribution to SDGs, which is computed through our societal contribution (CS) and net environmental contribution (NEC) metrics. For each invested company, activities are analysed in order to identify those which are exposed to SDGs. For a same activity, its number of targets can vary between 0 and 2. The company target exposure to one of its activities is weighted by the revenue share gained from this activity. For more details, our annual SRI report is available in our ESG documentation.

**No significant exposure : 21%**

## ESG follow-up, news and dialogue

### Dialogue and engagement

#### Sanofi

During a meeting with management, we learned that 1,800 permanent contract jobs had been created in France over the past two years, after several years of downsizing. A framework agreement on staff numbers was signed in 2022 with trade unions, for a duration of 4 years. Finally, for the 3rd year running, Sanofi is conducting an employee survey which will enable the company to detect and prevent a number of psycho-social risks.

### Investment strategy

#### A responsible selection of mid-caps

Sycomore Sélection Midcap seeks to outperform the MSCI EMU Smid Cap Net Return index (dividends reinvested) by employing a socially responsible and multi-themed investment process (energy transition, healthcare, nutrition, well-being, digital...) in keeping with the United Nations' Sustainable Development Goals (SDGs). Primarily exposed to EU country equities, the fund specifically targets the mid-cap segment, with no sector constraints. Our ESG exclusion and selection methodology is fully integrated into our corporate fundamental analysis framework.

### Performance as of 29.09.2023

	Sept	2023	1 year	3 yrs	*08/20	Annu.	2022	2021
Fund %	-6.1	-1.2	8.7	14.6	17.2	5.2	-20.5	25.4
Index %	-4.1	3.9	16.7	19.3	19.0	5.7	-16.0	18.9

\*The performances achieved before August 10, 2020 were achieved according to an investment strategy different from the one currently in force.

### Statistics

	Corr.	Beta	Alpha	Vol.	Bench.	Track.	Sharpe	Info	Draw	Bench.
				Vol	Error	Ratio	Ratio	Down	DD	
08/20*	1.0	1.0	-0.5%	18.2%	16.9%	5.5%	0.3	-0.1	-30.2%	-27.9%

### Fund commentary

Rising oil prices, which have rekindled fears of inflation, and statements from central banks warning against persistently high interest rates, weighed on equity markets and particularly on small and mid-caps. This environment is detrimental to the growth stocks held by the portfolio (Thule, Compugroup, Azelis), but benefits financials and oil companies which are under-represented within our portfolio. Consumer-related stocks were also badly hit, including De Longhi (household appliances) and Ariston (heating equipment for retail customers), which is also facing regulatory change in Italy and Germany as well as overcapacity issues on heat pumps. We have sold our position in El.En (laser equipment for industry and healthcare) due to the uncertain outlook in the Chinese market.

## Sustainable development goals exposure

This chart represents the main exposures to the United Nations Sustainable Development Goals and their 169 targets. Exposure is defined as the opportunity, for each company, to contribute positively to reaching SDGs, providing their products and services. This exercise doesn't aim to measure the companies effective contribution to SDGs, which is computed through our societal contribution (CS) and net environmental contribution (NEC) metrics. For each invested company, activities are analysed in order to identify those which are exposed to SDGs. For a same activity, its number of targets can vary between 0 and 2. The company target exposure to one of its activities is weighted by the revenue share gained from this activity. For more details, our annual SRI report is available in our ESG documentation.

**No significant exposure : 25%**

## ESG follow-up, news and dialogue

### Dialogue and engagement

#### Alfen

We requested a meeting to suggest the company improves the way it communicates on the net environmental contribution of its different businesses, by adopting a full lifecycle analysis approach.

#### Puma

We contacted Puma to encourage the company to reply to the Workforce Disclosure Initiative (WDI) questionnaire. People are central to Puma's strategy, and we are convinced that the disclosure of information – which will be more granular via this questionnaire – covering the group's employees and value chain, will send our strong signals. It is also necessary for investors to gain a better understanding of how the company values its workers.

### ESG controversies

#### Amplifon

The Competition and Markets Authority has opened an investigation into the market for hearing aids in Italy. According to the report by the AGCM, the current conditions may not guarantee full transparency on the prices of products and associated services. For the time being, Amplifon has received a request for information. The data collection process will last one month and may or may not lead to a deeper inquiry.

#### Rexel

Our meeting with Rexel in September was an opportunity to discuss the inquiry led by the Competition and Markets Authority in 2022 over potential collusion between electrical infrastructure specialists Schneider Electric and Legrand and their distributor Rexel on sale prices in France. After the notice of complaint issued in 2022, a report (non-material according to Rexel) should be disclosed by the end of 2023. A hearing in the second half of 2024 could determine a potential fine.

### Investment strategy

#### A responsible selection of SMEs

Sycamore Sélection PME seeks to deliver superior returns over a 5-year investment horizon by employing a socially responsible and multithemed investment process (energy transition, healthcare, nutrition, well-being, digital...) in keeping with the United Nations' Sustainable Development Goals (SDGs). Primarily exposed to EU country equities, the fund specifically targets European SMEs that meet the PEA-PME scheme selection criteria, with no sector constraints. Our ESG exclusion and selection methodology is fully integrated into our corporate fundamental analysis framework.

### Performance as of 29.09.2023

	Sep	2023	1 year	3 yrs	5 yrs	Inc. Annu.	2022	2021	2020	2019
Fund %	-7.1	-3.4	12.7	1.1	2.0	179.4	6.2	-21.9	20.6	19.2
Index %	-4.5	3.7	15.5	22.1	20.3	119.4	4.7	-16.7	22.7	4.3

### Statistics

	Corr.	Beta	Alpha	Vol.	Bench. Vol	Track. Error	Sharpe Ratio	Info Ratio	Draw Down	Bench. DD
3 years	0.9	0.8	-4.7%	14.8%	16.0%	7.3%	0.0	-0.9	-34.8%	-28.4%
Inception	0.8	0.5	3.5%	12.4%	19.1%	12.3%	0.4	0.1	-45.0%	-65.8%

### Fund commentary

Rising oil prices, which have rekindled fears of inflation, and statements from central banks warning against persistently high interest rates, weighed on equity markets and once again, hit small and mid-caps hardest. Volitalia posted the largest loss after a profit warning, notably due to a widespread blackout in Brazil that caused delays to the connection of new power plants. Chargeurs (earnings down sharply, with a substantial drop in volumes for protective film) and Esker (wage inflation weighing on margins in H1) also detracted from performance in September. In contrast, Delta Plus (earnings up by 30% in H1), Sol (profitability boosted in H1 by a favourable environment for technical gases), and Puuilo (extension of store network, strong cash generation in H1) published very satisfactory earnings despite the challenging environment.

### Investment strategy

#### A European selection of companies supporting the environmental transition

Sycomore Europe Eco Solutions invests in listed European companies across the entire market capitalisation spectrum. The fund focuses on companies with business models that support the environmental transition according to the Net Environmental Contribution (NEC) metric, covering a wide range of areas: renewable energy, energy efficiency and electrification, mobility, natural resources, renovation and construction, circular economy, food, and ecosystem services. The fund excludes businesses that destroy biodiversity, contribute towards global warming, or display poor Environmental, Societal and Governance ratings.

### Performance as of 29.09.2023

### Fund commentary

Markets remained under pressure in September as oil prices rose, rekindling inflation fears, and as central banks warned that key rates could stay high for longer than planned initially. Volitalia posted the largest loss after a profit warning, notably due to a widespread blackout in Brazil that caused delays to the connection of new power plants. Smurfit Kappa fell after the announcement of a merger with WestRock, which will allow for wider diversification and stronger presence in the North American market. However, the market considered that the financial terms of the deal were unfavourable to Smurfit Kappa. Alfen (pressure on margins in H1), Orsted (impairment on offshore assets in the US), Aurubis (metal theft) and Ariston (competitive pressure) continued to suffer from the negative news flow in August. In contrast, players in the pulp and paper industry (Stora, UPM, SCA) benefited once again from the gradual rise of pulp prices.

## Environmental analysis

### Net Environmental Contribution (NEC)\*\*

Degree of alignment of the economic models with the ecological transition, integrating biodiversity and climate, on a scale running from -100% for eco-obstruction to +100% for eco-solution, where 0% equates to the average environmental impact of the global economy. The results are expressed in NEC 1.0 ([nec-initiative.org](https://nec-initiative.org)) calculés par Sycomore AM sur la base de données de 2018 à 2021.

### Greenfin Breakdown\*\*

Companies breakdown according to their revenue generated by eco and excluded activities defined by [the Greenfin label](https://www.greenfinlabel.com)

### Temperature rising - SB2A

Induced average temperature increase by 2100 compared to pre-industrial times, according to the Science-Based 2°C Alignment methodology.  
Coverage rate : fund 77%

\*IPCC Sixth Assessment Report «Climate Change 2022: Mitigation of Climate Change». <https://www.ipcc.ch/assessment-report/ar6/>

### Climate alignment - SBTi

Share of companies that have validated their greenhouse gas reduction targets with the Science-Based Targets initiative.

### Carbon footprint

Annual greenhouse gas emissions (GHG Protocol) from upstream scopes 1, 2 and 3 per thousand euros invested\*\*\*.

### European taxonomy

Percentage of revenues derived from eligible activities to the EU taxonomy

Coverage rate : fund 99% / index 99%

### Fossil fuel exposure

Percentage of income derived from the three fossil energies.

### Biodiversity footprint

Artificialised surface area in m<sup>2</sup> MSA per k€ invested\*\*\*, measured by the Corporate Biodiversity Footprint. Mean Species Abundance (MSA) is assessed in comparison with the original state of the environment.

## Societal and social analysis

### Societal contribution

Contribution of the economic activity of companies to the resolution of major societal issues, on a scale from -100% to +100%.

Coverage rate : fund 98% / index 76%

### Staff growth

Cumulated growth in company headcounts over the past three financial years (data unadjusted in the event of acquisitions, excluding transformational deals).

Coverage rate : fund 99% / index 98%

## Sustainable development goals exposure

This chart represents the main exposures to the United Nations Sustainable Development Goals and their 169 targets. Exposure is defined as the opportunity, for each company, to contribute positively to reaching SDGs, providing their products and services. This exercise doesn't aim to measure the companies effective contribution to SDGs, which is computed through our societal contribution (CS) and net environmental contribution (NEC) metrics. For each invested company, activities are analysed in order to identify those which are exposed to SDGs. For a same activity, its number of targets can vary between 0 and 2. The company target exposure to one of its activities is weighted by the revenue share gained from this activity. For more details, our annual SRI report is available in our ESG documentation.

**No significant exposure : 11%**

Note: while SDG # 13 does not feature explicitly in this classification, this SDG remains one of the key objectives of our investment strategy and a factor that is systematically integrated and assessed, both at stock picking level and in our measurement of impacts. Nevertheless, based on the wording chosen by the UN, SDG # 13 cannot apply to a corporate company.

## ESG follow-up, news and dialogue

### Dialogue and engagement

#### Alfen

We requested a meeting to suggest the company improves the way it communicates on the net environmental contribution of its different businesses, by adopting a full lifecycle analysis approach.

#### ERG

We had asked ERG to examine and disclose the percentage of its revenue and capex aligned with the European taxonomy. The company has estimated that 62% of its revenue and 96% of its capex were aligned at end 2022. With the confirmed sale of its remaining CCGT (gas) capacities, the company will mechanically achieve 100% of aligned revenue and capex.

### Investment strategy

#### A global selection of companies supporting the environmental transition

Sycamore Global Eco Solutions invests in international listed companies across the entire market capitalization spectrum. The fund focuses on companies with business models that contribute to the environmental transition according to the Net Environmental Contribution (NEC) metric, covering a wide range of areas: renewable energy, energy efficiency and electrification, mobility, natural resources, renovation and construction, circular economy, food, and ecosystem services. The fund excludes businesses that destroy biodiversity, contribute towards global warming, or display poor Environmental, Societal and Governance ratings.

### Performance as of 29.09.2023

	Sept	2023	1 year	Inc.	Annu.	2022

Inception	0.8	0.9	-10.4%	17.2%	15.1%	9.6%	-0.7	-1.1	-20.8%	-16.3%

### Fund commentary

Resilient economic data failed to stabilize the market which was impacted by record high long-term rates and the inflation of energy prices. Nestlé benefited from the rebound of diesel prices and from a regulatory report that paves the way for an increase in renewable diesel in California. Orsted remained affected by doubts over the economic rationale of offshore wind power in the US, while Solaredge suffered from negative momentum in the residential solar energy market, as demand from Europe is hit by backlash from the energy crisis. Smurfit Kappa fell after the announcement of a merger with WestRock, the terms of which appear unfavorable to the former, while the pulp and paper industry gets wind back in its sails as prices rise gradually and variable costs start to decline. We initiated positions in two new companies: Aptiv, as the growth characteristics of this supplier for electric vehicles and driver assistance offer a compelling investment opportunity, and Equinix, which operates and connects clients in its data centers, while minimizing the footprint of its operations.

## ESG follow-up, news and dialogue

### Dialogue and engagement

#### NextEra Energy

We have continued our discussions with NextEra Energy with the aim of strengthening the company's reporting and the alignment of its carbon reduction targets with the Paris Agreement. Our recommendations include: reporting the carbon intensity of the energy mix in physical units per GWh rather than using its own index, and submitting these targets to the SBTi for approval.

#### Alfen

We requested a meeting to suggest the company improves the way it communicates on the net environmental contribution of its different businesses, by adopting a full lifecycle analysis approach.

### Investment strategy

#### A responsible selection of people-driven European companies

Sycamore Europe Happy@Work invests in European companies that pay particular attention to the importance of human capital as a key performance driver. The fund seeks to contribute positively to the human capital issues highlighted in the United Nations' Sustainable Development Goals. Stocks are selected on the basis of rigorous fundamental analysis combined with in-depth ESG research, focusing on a company's ability to promote employee fulfillment and engagement, using a proprietary assessment framework. The analysis draws from the experience and knowledge of field experts, human capital managers and employees. Fund managers also carry out on-site visits. The fund seeks to outperform the Euro Stoxx TR index over 5 years.

### Performance as of 29.09.2023

	Sep	2023	1 year	3 yrs	5 yrs	Inc.	Annu.	2022	2021	2020	2019
Fund %	-2.6	6.5	17.5	10.2	19.3	59.0	5.8	-19.0	15.5	13.0	23.8
Index %	-3.1	10.0	23.9	33.2	30.2	51.6	5.2	-12.3	22.7	0.2	26.1

Performance prior to 11/04/2015 was achieved by an identical French fund created on 07/06/2015, which was liquidated in favour of the Luxembourg sub-fund.

### Statistics

	Corr.	Beta	Alpha	Vol.	Bench. Vol	Track. Error	Sharpe Ratio	Info Ratio	Draw Down	Bench. DD
3 years	0.9	0.9	-4.7%	15.8%	17.4%	6.2%	0.2	-1.1	-29.4%	-24.6%
Inception	0.9	0.7	1.7%	15.0%	18.5%	7.6%	0.4	0.1	-31.4%	-37.9%

### Fund commentary

The fund remained resilient and was in-line with the benchmark amid the market volatilities driven by rising oil prices and the weak Chinese economy. This is attributable to the diversified portfolio of Happy@Work stocks with strong balance sheets, low leverage, good power pricing, and engaged workforce. Particularly, AstraZeneca rose after the positive headline data of Dato-DXd drug in breast cancer. Defensive stocks like RELX, Munich Re and Deutsche Telekom also contributed positively to the portfolio. On the other hand, the technology sector retreated temporarily (e.g. Nvidia, STM) due to profit taking after the good YTD performance. We believe their valuation is becoming more attractive. The fund is well positioned and is exposed to multiple secular themes with strong long-term fundamentals including the GLP-1 obesity drug phenomenon with Novo Nordisk, the electrification trend with Schneider Electric, and the Generative AI trend with Nvidia and Microsoft.

## Sustainable development goals exposure

## ESG follow-up, news and dialogue

### Dialogue and engagement

#### Puma

We contacted Puma to encourage the company to reply to the Workforce Disclosure Initiative (WDI) questionnaire. People are central to Puma's strategy, and we are convinced that the disclosure of information – which will be more granular via this questionnaire – covering the group's employees and value chain, will send our strong signals. It is also necessary for investors to gain a better understanding of how the company values its workers.

#### Brunello Cucinelli

During our meeting, Brunello Cucinelli explained that the company continues to focus on rarity and exclusivity by offering very high-quality products. To achieve this, the group manufactures its goods exclusively in Italy, where it operates a network of local artisans based on long-term working relationships. Brunello pays these artisans 20% more than the market on average, and recently increased the wages of employees performing their tasks "by hand" (seamstresses, tailors...)

### ESG controversies

#### Rexel

Our meeting with Rexel in September was an opportunity to discuss the inquiry led by the Competition and Markets Authority in 2022 over potential collusion between electrical infrastructure specialists Schneider Electric and Legrand and their distributor Rexel on sale prices in France. After the notice of complaint issued in 2022, a report (non-material according to Rexel) should be disclosed by the end of 2023. A hearing in the second half of 2024 could determine a potential fine.

#### Novartis

The Prescription Medicines Code of Practice Authority (UK) has determined Novartis breached Clause 2 of the Association of the British Pharmaceutical Industry Code for multiple sclerosis therapy Mayzent. This is the 3rd time this year that Novartis is charged with breaching Clause 2 by the PMCPA, which is only reserved for the most serious of cases.cf. anglais

### Investment strategy

#### A responsible selection of people-driven global companies

Sycamore Global Happy@Work invests in global companies that pay particular attention to the importance of human capital as a key performance driver. The fund seeks to contribute positively to the human capital issues highlighted in the United Nations' Sustainable Development Goals. Stocks are selected on the basis of rigorous fundamental analysis combined with in-depth ESG research focusing on a company's ability to promote employee fulfillment and engagement, using a proprietary assessment framework. The analysis draws from the experience and knowledge of field experts, human capital managers and employees. Fund managers also carry out on-site visits. The fund seeks to outperform the MSCI AC World index (NDEEWNR) over 5 years.

### Performance as of 29.09.2023

	Sept	2023	1 year	Inc.	Annu.	2022
Fund %	-2.4	13.9	13.2	-9.2	-5.3	-23.2
Index %	-1.7	10.9	11.8	-1.7	-0.9	-13.0

### Statistics

	Corr.	Beta	Alpha	Vol.	Bench. Vol	Track. Error	Sharpe Ratio	Info Ratio	Draw Down	Bench. DD
Inception	0.9	1.1	-4.0%	18.0%	15.1%	6.5%	-0.4	-0.7	-25.0%	-16.3%

### Fund commentary

The fund is behind the benchmark after a strong month in August. It suffered temporarily from the profit-taking in the technology sector (e.g. Nvidia, Advantest), which had a good YTD performance, and the valuation has now become attractive. We were also impacted by the upward movement in the energy sector which is absent in the fund due to its ESG criteria. Thanks to the diversified portfolio of Happy@Work companies, there are many stocks to offset these temporary headwinds. Progressive rebounded as investors realized its long-term growth thesis is intact. Eli Lilly continues to rise in anticipation of the strong obesity drug demand. Defensive stocks like Verisk and Waste Connections also contributed positively. The fund is exposed to multiple secular themes with strong long-term fundamentals including the GLP-1 obesity drug phenomenon with Eli Lilly, the electrification trend with Eaton, and the Generative AI trend with Nvidia and Microsoft.

## Sustainable development goals exposure

## ESG follow-up, news and dialogue

### Dialogue and engagement

#### Puma

We contacted Puma to encourage the company to reply to the Workforce Disclosure Initiative (WDI) questionnaire. People are central to Puma's strategy, and we are convinced that the disclosure of information – which will be more granular via this questionnaire – covering the group's employees and value chain, will send our strong signals. It is also necessary for investors to gain a better understanding of how the company values its workers.

#### T-Mobile US

We initiated a dialogue with T-Mobile on user mental health & wellbeing. T-Mobile provides safeguards, account features and educational resources to empower individuals on online safety, cybersecurity, data protection and privacy. T-Mobile implements a Children's Privacy Notice, provides features to help families manage their children's online activities & screen time, and free mental health crisis counseling with the 988 dialing and texting code to connect people to a Suicide & Crisis Lifeline.

### ESG controversies

#### Novartis

The Prescription Medicines Code of Practice Authority (UK) has determined Novartis breached Clause 2 of the Association of the British Pharmaceutical Industry Code for multiple sclerosis therapy Mayzent. This is the 3rd time this year that Novartis is charged with breaching Clause 2 by the PMCPA, which is only reserved for the most serious of cases.cf. anglais

### Investment strategy

#### A selection of growth securities with a positive societal impact

Sycamore Social Impact is a Eurozone equity fund that focuses on companies of any size that offer solutions to global societal challenges, and that have embedded this pursuit of positive impacts into their strategy to deliver profitable and sustainable growth. The fund aims to outperform the benchmark, the Euro Stoxx Total Return index, through a socially responsible investment process. Stock selection is based on our proprietary SPICE methodology, notably on the societal contribution of products & services indicator.

### Performance as of 29.09.2023

Inception	0.9	0.6	1.6%	13.3%	20.9%	10.9%	0.3	0.0	-55.7%	-60.2%

### Fund commentary

Eurozone equity markets fell in September impacted by surging bond yields and oil prices. In this environment, the fund benefited from its under-exposure to cyclicals, including discretionary consumer spending, materials and growth sectors impacted by rising yields, such as technology. Conversely, the fund's limited exposure to financials and its absence from the energy sector weighed on relative performance. Top contributors to performance in September included our largest positions within healthcare, such as Sanofi, AstraZeneca, Siemens Healthineers and Novartis. Qiagen was the leading detractor due to uncertainty over future demand in the diagnosis market, which had surged during the Covid-19 pandemic. We initiated a new position in Carl Zeiss.

The labels aim to guide investors in identifying sustainable and responsible investments. The composition of the management team is subject to change without notice. Before investing, first consult the Fund's KIID available on our [www.sycamore-am.com](http://www.sycamore-am.com) website.

## Sustainable development goals exposure

This chart represents the main exposures to the United Nations Sustainable Development Goals and their 169 targets. Exposure is defined as the opportunity, for each company, to contribute positively to reaching SDGs, providing their products and services. This exercise doesn't aim to measure the companies effective contribution to SDGs, which is computed through our societal contribution (CS) and net environmental contribution (NEC) metrics. For each invested company, activities are analysed in order to identify those which are exposed to SDGs. For a same activity, its number of targets can vary between 0 and 2. The company target exposure to one of its activities is weighted by the revenue share gained from this activity. For more details, our annual SRI report is available in our ESG documentation.

**No significant exposure : 5%**

## ESG follow-up, news and dialogue

### Dialogue and engagement

#### Sanofi

During a meeting with management, we learned that 1,800 permanent contract jobs had been created in France over the past two years, after several years of downsizing. A framework agreement on staff numbers was signed in 2022 with trade unions, for a duration of 4 years. Finally, for the 3rd year running, Sanofi is conducting an employee survey which will enable the company to detect and prevent a number of psycho-social risks.

#### Believe

We addressed the issue of well-being and mental health for the end users of Believe's products. As the company is a B2B connection platform with record labels, Believe has no interface with end users and has therefore not implemented any measures designed to foster their well-being. Believe addresses the issue of health & well-being through the "engagement and initiatives" programme directed towards the company's employees.

### ESG controversies

#### Novartis

The Prescription Medicines Code of Practice Authority (UK) has determined Novartis breached Clause 2 of the Association of the British Pharmaceutical Industry Code for multiple sclerosis therapy Mayzent. This is the 3rd time this year that Novartis is charged with breaching Clause 2 by the PMCPA, which is only reserved for the most serious of cases.

### Investment strategy

#### An international selection of companies supporting lifelong quality education

The objective of the Sycomore Global Education fund is to outperform the MSCI AC World Net Return index by investing in three types of listed companies that contribute to education and/or vocational training: i/ companies providing education products and services, ii/ companies creating favourable learning conditions by providing products and services addressing student needs, iii/ companies that are leveraging education to deliver shared value with their stakeholders, creating positive economic and societal impact. The fund has no constraints in terms of the sectors or education fields it covers. Stock selection relies on the SPICE rating and societal contribution, on the theme of education, in keeping with the United Nations' Sustainable Development Goals and in particular SDG 4.

### Performance as of 29.09.2023

	Sep	2023	1 year	Inc.	Annu.	2022
Fund %	0.3	10.9	11.4	-12.7	-5.3	-17.4
Index %	-1.7	10.9	11.8	13.3	5.1	-13.0

### Statistics

1 year	0.8	0.8	2.5%	12.7%	12.7%	7.7%	0.7	0.0	-7.7%	-7.7%
Inception	0.8	0.9	-9.6%	14.3%	13.8%	7.8%	-0.4	-1.3	-27.7%	-16.3%

### Fund commentary

The increase in interest rate and potential implications on the global economy have continue to impact global equity markets that were down again in September. In this difficult environment the fund has continued to outperform. The stabilization of the fundamentals in Education plus the defensive characteristics has helped the sector to outperform in September. Positive contributors during the month were Stride (virtual school for K12 in US), Coursera (learning language application drive by AI), and RELX (global provider of information and analytics). In September we have sold our position in Arco (learning management system in Brazil) which acquisition was approved by the Brazilian regulator and now trades in line with the offer price.

## ESG follow-up, news and dialogue

### Dialogue and engagement

#### Duolingo

We initiated an engagement with Duolingo on end user mental health and wellbeing. Duolingo already worked on mental health and wellbeing concerns and benefits to its users, for instance by limiting the number of notifications the user gets, and assurance of safe content and privacy for young users. At Duolingo, gamification features have a learning outcome, they are not addictive: average daily app use is 13-20min and very rarely exceeds an hour.

#### T-Mobile US

We initiated a dialogue with T-Mobile on user mental health & wellbeing. T-Mobile provides safeguards, account features and educational resources to empower individuals on online safety, cybersecurity, data protection and privacy. T-Mobile implements a Children's Privacy Notice, provides features to help families manage their children's online activities & screen time, and free mental health crisis counseling with the 988 dialing and texting code to connect people to a Suicide & Crisis Lifeline.

### Investment strategy

#### A selection of listed and unlisted European companies supporting the creation of durable, inclusive employment

Sycomore Inclusive Jobs is an inclusive equity fund that invests in companies creating durable, inclusive jobs, according to Sycomore AM's analysis. The fund invests 85 to 95% of its assets in listed European stocks and 5 to 10% in units of FCPR Sycomore Impact Emploi By INCO. The FCPR, managed by INCO Ventures, invests in unlisted companies and associations that are active in creating inclusive employment for people with difficult access to the job market. The main selection metric is the Good Jobs Rating, which employs three key factors to assess a company's contribution towards meeting job-related societal challenges: quantity, quality and geography. The companies in the portfolio must also operate activities aligned with the societal and environmental transitions.

### Performance as of 29.09.2023

	Sept	2023	1 year	Inc.	Annu.	2022
Fund %	-4.3	-3.6	4.8	-18.8	-8.3	-19.9
Index %	-3.1	10.0	23.9	4.4	1.8	-12.3

	Corr.	Beta	Alpha	Vol.	Bench. Vol	Track. Error	Sharpe Ratio	Info Ratio	Draw Down	Bench. DD
1 year	0.9	0.8	-13.3%	13.9%	15.7%	6.1%	0.2	-3.1	-11.9%	-7.1%
Inception	0.9	0.8	-10.9%	15.1%	18.5%	6.9%	-0.6	-1.5	-28.9%	-24.6%

### Fund commentary

Surging bond yields sent stock markets tumbling in September, with the technology and industrial sectors particularly impacted. Energy was the only sector to outperform the market by a wide margin – a sector to which the fund is not exposed, detracting from relative performance. The fund's over-exposure to Michelin, which rose as investors anticipated an improved momentum for the company, and to Bouygues, which announced the sale of Equans' district heat and cooling network activities in the UK, contributed positively. Conversely, El.En, an Italian company that produces laser systems, weighed on the fund's performance after the firm reported a slowdown in growth, notably due to a weak Chinese market, and a 6% drop in its operating income in H1.

## Map of companies headquarters in portfolio

## ESG follow-up, news and dialogue

### Dialogue and engagement

#### Bouygues

As members of the Club 30%, we requested a meeting with management to discuss gender parity issues. The Club 30% is an investor coalition that advocates better gender diversity within SBF 120 index companies. Our observations include the absence of female members on Bouygues' executive committee, we also noted that no indicator measuring gender wage gaps within the Group had been published.

#### Sanofi

During a meeting with management, we learned that 1,800 permanent contract jobs had been created in France over the past two years, after several years of downsizing. A framework agreement on staff numbers was signed in 2022 with trade unions, for a duration of 4 years. Finally, for the 3rd year running, Sanofi is conducting an employee survey which will enable the company to detect and prevent a number of psycho-social risks.

### Investment strategy

#### A selection of global responsible technology players

Sycamore Sustainable Tech invests in technology companies listed on international markets and employs an innovative SRI process. Stocks are selected with no regional or market capitalisation constraints. The ESG approach focuses on three dimensions: 1- "Tech for Good": for goods and services with positive social or environmental impacts; 2- "Good in Tech": for a responsible use of goods and services that will reduce negative externalities impacting individuals or the environment; 3- "Improvement Enablers": companies engaged in making progress in the two previous dimensions.

### Performance as of 29.09.2023

	Sep	2023	1 year	3 yrs	Inc.	Annu.	2022	2021
Fund %	-3.5	24.0	22.4	13.3	15.4	4.8	-33.9	22.1
Index %	-4.1	30.1	26.0	44.0	46.7	13.4	-26.8	36.8

### Statistics

1 year	0.9	1.0	-0.8%	20.1%	19.8%	7.1%	1.0	-0.5	-10.5%	-11.5%
Inception	0.9	1.0	-7.4%	22.0%	20.8%	7.8%	0.2	-1.1	-38.3%	-28.8%

### Fund commentary

September was a negative month for technology equities as we continued to consolidate the strong 1H performance for the sector, with higher interest rates in the US inflecting the most pain - notably the US 10yr reaching 4.60%, up from 4.10% at the start of the month. Our positions in Duolingo, Gartner and CyberArk contributed positively, while Nvidia, Oracle, and MongoDB weighed most on our returns. Despite this, our fund performed closely in-line with our benchmark as we reduced risk through September. We remain upbeat on tech fundamentals going into 3Q results as IT budgets continue to normalize, supplemented by strong demand for AI-related semiconductor and hardware. We will be using this recent weakness to increase our highest conviction holdings into the next earnings season for tech.

Coverage rate : fund 94% / index 95%

## Sustainable development goals exposure

This chart represents the main exposures to the United Nations Sustainable Development Goals and their 169 targets. Exposure is defined as the opportunity, for each company, to contribute positively to reaching SDGs, providing their products and services. This exercise doesn't aim to measure the companies effective contribution to SDGs, which is computed through our societal contribution (CS) and net environmental contribution (NEC) metrics. For each invested company, activities are analysed in order to identify those which are exposed to SDGs. For a same activity, its number of targets can vary between 0 and 2. The company target exposure to one of its activities is weighted by the revenue share gained from this activity. For more details, our annual SRI report is available in our ESG documentation.

**No significant exposure : 7%**

## ESG follow-up, news and dialogue

### Dialogue and engagement

#### Duolingo

We initiated an engagement with Duolingo on end user mental health and wellbeing. Duolingo already worked on mental health and wellbeing concerns and benefits to its users, for instance by limiting the number of notifications the user gets, and assurance of safe content and privacy for young users. At Duolingo, gamification features have a learning outcome, they are not addictive: average daily app use is 13-20min and very rarely exceeds an hour.

#### T-Mobile US

We initiated a dialogue with T-Mobile on user mental health & wellbeing. T-Mobile provides safeguards, account features and educational resources to empower individuals on online safety, cybersecurity, data protection and privacy. T-Mobile implements a Children's Privacy Notice, provides features to help families manage their children's online activities & screen time, and free mental health crisis counseling with the 988 dialing and texting code to connect people to a Suicide & Crisis Lifeline.

## Investment strategy

### A stock picking fund with exposure to equities ranging between 0 and 100%

Sycomore Partners is a concentrated stock picking fund whose exposure to equities may range between 0 and 100%. The fund aims to achieve superior returns over a minimum investment horizon of five years by applying a thorough stock selection process based on the fundamental, in-depth analysis of European and international stocks, incorporating strict ESG criteria. In addition, the fund's exposure to stock markets is managed according to an opportunistic and discretionary approach. The fund seeks to exclude companies displaying significant ESG risks and focuses on those driven by sustainability considerations and that appear clearly committed to shifting towards more sustainable economic models.

### Performance as of 29.09.2023

	Sep 2023	1 year	3 yrs	5 yrs	Inc. Annu.	2022	2021	2020	2019
Fund %	-2.8	2.0	10.9	16.0	73.2	3.6	-5.7	10.2	-3.3
Index %	-1.4	6.2	13.1	17.6	54.5	2.8	-5.8	10.7	12.3

### Statistics

	Corr.	Beta	Alpha	Vol.	Bench. Vol	Track. Error	Sharpe Ratio	Info Ratio	Draw Down	Bench. DD
3 years	0.9	0.9	0.2%	9.5%	8.7%	4.9%	0.5	-0.1	-15.2%	-12.9%
Inception	0.9	1.0	1.1%	12.5%	11.1%	6.5%	0.3	0.1	-31.7%	-29.7%

### Fund commentary

The fund was impacted by the profit warning issued by ALD due to rising IT, regulatory and funding costs. The positive fallouts from the merger with LeasePlan will only materialize from 2025, which is why we trimmed our exposure from 4.8% to less than 3%. While our positions in RWE and EDP were impacted by rising interest rates and investor wariness over renewables, higher oil prices benefited TotalEnergies and GTT. In today's low visibility environment, we continued to reduce our exposure to cyclicals by trimming Stellantis and STMicroelectronics.

### Dialogue and engagement

#### Teleperformance

We visited the contact center (the client meeting and visit area) at Zoetermeer in The Netherlands, and notably the area dedicated to Samsung. During our visit, we met few employees - as half of the workforce was working from home. The managers who did discuss issues with investors are passionate about their work, pleased with the opportunities for internal mobility, and with the company's training efforts.

### ESG controversies

#### Stellantis

With collective agreements nearing their term, the United Auto Workers union called for strike action in September affecting the three major auto manufacturers - General Motors, Ford and Stellantis. Demands focus principally on wage increases. These strikes and their potential impacts on labour costs for Stellantis in the US do not call into question our investment conviction on the stock.

#### Vivendi

Following Vivendi's acquisition of the Prisma Media press group in 2021, journalist Jean-Marie Bretagne published a book in July 2023 exposing negative managerial behaviour and the attacks on journalistic integrity observed since the takeover. He notably mentions the censorship and practices that go against "press freedom and freedom of expression". The publication of this book is a further criticism of the Group's practices and lack of journalistic integrity.

## Investment strategy

### A stock picking fund with exposure to equities ranging between 0 and 100%

Sycomore Partners is a concentrated stock picking fund whose exposure to equities may range between 0 and 100%. The fund aims to achieve superior returns over a minimum investment horizon of five years by applying a thorough stock selection process based on the fundamental, in-depth analysis of European and international stocks, incorporating strict ESG criteria. In addition, the fund's exposure to stock markets is managed according to an opportunistic and discretionary approach. The fund seeks to exclude companies displaying significant ESG risks and focuses on those driven by sustainability considerations and that appear clearly committed to shifting towards more sustainable economic models.

### Performance as of 29.09.2023

	Sep 2023	1 year	3 yrs	5 yrs	Inc. Annu.	2022	2021	2020	2019		
Fund %	-2.8	1.8	10.6	15.3	-1.3	67.2	3.4	-5.7	9.9	-3.5	3.9
Index %	-1.4	6.2	13.1	17.6	17.4	54.5	2.8	-5.8	10.7	1.0	12.3

### Statistics

	Corr.	Beta	Alpha	Vol.	Bench. Vol	Track. Error	Sharpe Ratio	Info Ratio	Draw Down	Bench. DD
3 years	0.9	0.9	0.1%	9.5%	8.7%	4.9%	0.5	-0.1	-15.1%	-12.9%
Inception	0.9	1.0	0.8%	12.5%	11.1%	6.5%	0.2	0.1	-31.9%	-29.7%

### Fund commentary

The fund was impacted by the profit warning issued by ALD due to rising IT, regulatory and funding costs. The positive fallouts from the merger with LeasePlan will only materialize from 2025, which is why we trimmed our exposure from 4.8% to less than 3%. While our positions in RWE and EDP were impacted by rising interest rates and investor wariness over renewables, higher oil prices benefited TotalEnergies and GTT. In today's low visibility environment, we continued to reduce our exposure to cyclicals by trimming Stellantis and STMicroelectronics.

### Investment strategy

Sycomore Next Generation is a flexible, multi-asset SRI fund that combines Sycomore's proven expertise in responsible stock and bond picking and international asset allocation, to achieve performance and diversification. The fund's investment process draws from a thorough fundamental analysis, combined with the ESG analysis of companies and countries, with an additional macroeconomic overlay. Managed actively, the fund's exposure to equities (0-50%) and fixed income (0-100%) - including corporate and sovereign debt - is designed to enhance its risk-return profile, to achieve steady capital growth. Employing a multi-themed SRI approach, the fund seeks to invest in companies addressing social, environmental, and technological challenges as highlighted by the United Nations' Sustainable Development Goals, for the generations to come.

### Performance as of 29.09.2023

	Sep	2023	1 year	3 yrs	Inc.	Annu.	2022	2021	2020
Fund %	-0.7	4.8	7.5	4.3	2.5	0.6	-10.6	5.3	2.8
Index %	0.5	4.1	5.1	9.3	12.5	2.7	2.5	1.9	2.0

### Statistics

	Corr.	Beta	Alpha	Vol.	Sharpe Ratio	Info Ratio	Draw Down	Sensi.	Yield to mat.	Yield to worst
3 years	0.9	0.2	-1.1%	4.7%	0.2	-0.6	-13.7%			
Inception	0.9	0.2	-1.2%	5.6%	0.1	-0.3	-15.8%	1.4	5.9%	5.7%

### Fund commentary

Beyond the ECB's interest rate hike, the fighting spirit demonstrated by central banks as they strive to curb inflation has pushed yields up to new highs, amid broad risk aversion across financial markets. The macro data published in the US so far is showing no signs that the economy is entering a recession. However, the Chinese economy continues to struggle in its recovery cycle. We partly reduced our exposure to equities during the month to lock in the fund's performance. Bond yields are increasingly attractive, including on the European and US sovereign segment, and are becoming a core driver for current and future returns.

## Sustainable development goals exposure

This chart represents the main exposures to the United Nations Sustainable Development Goals and their 169 targets. Exposure is defined as the opportunity, for each company, to contribute positively to reaching SDGs, providing their products and services. This exercise doesn't aim to measure the companies effective contribution to SDGs, which is computed through our societal contribution (CS) and net environmental contribution (NEC) metrics. For each invested company, activities are analysed in order to identify those which are exposed to SDGs. For a same activity, its number of targets can vary between 0 and 2. The company target exposure to one of its activities is weighted by the revenue share gained from this activity. For more details, our annual SRI report is available in our ESG documentation.

**No significant exposure : 30%**

## ESG follow-up, news and dialogue

### Dialogue and engagement

#### Sanofi

During a meeting with management, we learned that 1,800 permanent contract jobs had been created in France over the past two years, after several years of downsizing. A framework agreement on staff numbers was signed in 2022 with trade unions, for a duration of 4 years. Finally, for the 3rd year running, Sanofi is conducting an employee survey which will enable the company to detect and prevent a number of psycho-social risks.

#### T-Mobile US

We initiated a dialogue with T-Mobile on user mental health & wellbeing. T-Mobile provides safeguards, account features and educational resources to empower individuals on online safety, cybersecurity, data protection and privacy. T-Mobile implements a Children's Privacy Notice, provides features to help families manage their children's online activities & screen time, and free mental health crisis counseling with the 988 dialing and texting code to connect people to a Suicide & Crisis Lifeline.cf. anglais

### ESG controversies

#### Novartis

The Prescription Medicines Code of Practice Authority (UK) has determined Novartis breached Clause 2 of the Association of the British Pharmaceutical Industry Code for multiple sclerosis therapy Mayzent. This is the 3rd time this year that Novartis is charged with breaching Clause 2 by the PMCPA, which is only reserved for the most serious of cases.cf. anglais

#### Stellantis

With collective agreements nearing their term, the United Auto Workers union called for strike action in September affecting the three major auto manufacturers - General Motors, Ford and Stellantis. Demands focus principally on wage increases.

## Sustainable development goals exposure

This chart represents the main exposures to the United Nations Sustainable Development Goals and their 169 targets. Exposure is defined as the opportunity, for each company, to contribute positively to reaching SDGs, providing their products and services. This exercise doesn't aim to measure the companies effective contribution to SDGs, which is computed through our societal contribution (CS) and net environmental contribution (NEC) metrics. For each invested company, activities are analysed in order to identify those which are exposed to SDGs. For a same activity, its number of targets can vary between 0 and 2. The company target exposure to one of its activities is weighted by the revenue share gained from this activity. For more details, our annual SRI report is available in our ESG documentation.

**No significant exposure : 30%**

## ESG follow-up, news and dialogue

### Dialogue and engagement

#### Sanofi

During a meeting with management, we learned that 1,800 permanent contract jobs had been created in France over the past two years, after several years of downsizing. A framework agreement on staff numbers was signed in 2022 with trade unions, for a duration of 4 years. Finally, for the 3rd year running, Sanofi is conducting an employee survey which will enable the company to detect and prevent a number of psycho-social risks.

#### T-Mobile US

We initiated a dialogue with T-Mobile on user mental health & wellbeing. T-Mobile provides safeguards, account features and educational resources to empower individuals on online safety, cybersecurity, data protection and privacy. T-Mobile implements a Children's Privacy Notice, provides features to help families manage their children's online activities & screen time, and free mental health crisis counseling with the 988 dialing and texting code to connect people to a Suicide & Crisis Lifeline.cf. anglais

### ESG controversies

#### Novartis

The Prescription Medicines Code of Practice Authority (UK) has determined Novartis breached Clause 2 of the Association of the British Pharmaceutical Industry Code for multiple sclerosis therapy Mayzent. This is the 3rd time this year that Novartis is charged with breaching Clause 2 by the PMCPA, which is only reserved for the most serious of cases.cf. anglais

#### Stellantis

With collective agreements nearing their term, the United Auto Workers union called for strike action in September affecting the three major auto manufacturers - General Motors, Ford and Stellantis. Demands focus principally on wage increases.

**Hadrien BULTE**  
Fund Manager -  
Analyst

## Investment strategy

Sycomore Opportunities is a feeder fund of Sycomore Partners (Master Fund) and invests at least 95% of its net assets in "MF" units of its Master Fund and up to 5% in cash.

Sycomore Partners, a concentrated stock picking fund whose exposure to equities may range between 0 and 100%. The fund aims to achieve superior returns over a minimum investment horizon of five years by applying a thorough stock selection process based on the fundamental, in-depth analysis of European and international stocks, incorporating strict ESG criteria. In addition, the fund's exposure to stock markets is managed according to an opportunistic and discretionary approach. The fund seeks to exclude companies displaying significant ESG risks and focuses on those driven by sustainability considerations and that appear clearly committed to shifting towards more sustainable economic models.

## Performance as of 29.09.2023

	Sep	2023	1 year	3 yrs	5 yrs	Inc.*	Annu.	2022	2021	2020	2019
<b>Fund %</b>	-2.9	0.0	3.3	-4.5	-6.7	77.0	3.1	-16.2	1.0	8.7	9.9
<b>Index %</b>	-1.4	6.2	13.1	17.6	17.4	99.2	3.7	-5.8	10.7	1.0	12.3

## Statistics

	Corr.	Beta	Alpha	Vol.	Bench. Vol	Track. Error	Sharpe Ratio	Info Ratio	Draw Down	Bench. DD
3 years	0.8	0.8	-5.9%	9.2%	8.7%	5.6%	-0.2	-1.3	-24.4%	-12.9%
<b>Inception</b>	0.8	0.8	0.3%	9.9%	10.1%	6.3%	0.2	-0.1	-27.0%	-33.4%

## Fund commentary

The fund was impacted by the profit warning issued by ALD due to rising IT, regulatory and funding costs. The positive fallouts from the merger with LeasePlan will only materialize from 2025, which is why we trimmed our exposure from 4.8% to less than 3%. While our positions in RWE and EDP were impacted by rising interest rates and investor wariness over renewables, higher oil prices benefited TotalEnergies and GTT. In today's low visibility environment, we continued to reduce our exposure to cyclicals by trimming Stellantis and STMicroelectronics.

## Net equity exposure

The labels aim to guide investors in identifying sustainable and responsible investments. The composition of the management team is subject to change without notice. Before investing, first consult the Fund's KIID available on our [www.sycomore-am.com](http://www.sycomore-am.com) website.

## Environmental analysis

### Net Environmental Contribution (NEC)

Degree of alignment of the economic models with the ecological transition, integrating biodiversity and climate, on a scale running from -100% for eco-obstruction to +100% for eco-solution, where 0% equates to the average environmental impact of the global economy. The results are expressed in NEC 1.0 ([nec-initiative.org](https://nec-initiative.org)) calculated by Sycomore AM based from 2018 to 2021.

Coverage rate : fund 100% / index 98%

### European taxonomy

Percentage of revenues derived from eligible activities to the EU taxonomy

Coverage rate : fund 96% / index 99%

### Fossil fuel exposure

Percentage of income derived from the three fossil energies.

### Carbon footprint

Annual greenhouse gas emissions (GHG Protocol) from upstream scopes 1, 2 and 3 per thousand euros invested\*\*\*.

Coverage rate : fund 100% / index 98%

## Societal and social analysis

### Societal contribution

Contribution of the economic activity of companies to the resolution of major societal issues, on a scale from -100% to +100%.

Coverage rate : fund 100% / index 93%

### Staff growth

Cumulated growth in company headcounts over the past three financial years (data unadjusted in the event of acquisitions, excluding transformational deals).

Coverage rate : fund 100% / index 99%

### Gender equality ♀/ ♂

Percentage of women in total company headcounts and executive committees.

Staff cov. rate: fund 100% / index 99%

ExecComm cov. rate: fund 100% / index 100%

## ESG follow-up, news and dialogue

---

### Dialogue and engagement

#### Teleperformance

We visited the contact center (the client meeting and visit area) at Zoetermeer in The Netherlands, and notably the area dedicated to Samsung. During our visit, we met few employees - as half of the workforce was working from home. The managers who did discuss issues with investors are passionate about their work, pleased with the opportunities for internal mobility, and with the company's training efforts.

### ESG controversies

#### Stellantis

With collective agreements nearing their term, the United Auto Workers union called for strike action in September affecting the three major auto manufacturers - General Motors, Ford and Stellantis. Demands focus principally on wage increases. These strikes and their potential impacts on labour costs for Stellantis in the US do not call into question our investment conviction on the stock.

#### Vivendi

Following Vivendi's acquisition of the Prisma Media press group in 2021, journalist Jean-Marie Bretagne published a book in July 2023 exposing negative managerial behaviour and the attacks on journalistic integrity observed since the takeover. He notably mentions the censorship and practices that go against "press freedom and freedom of expression". The publication of this book is a further criticism of the Group's practices and lack of journalistic integrity.

### Investment strategy

#### A responsible and opportunistic selection of European bonds based on proprietary ESG analysis

Sycomore Sélection Crédit aims to deliver financial returns above those of the Barclays Capital Euro Corporate ex-Financial Bonds (reinvested coupons) over a minimum investment horizon of five years, within a modified duration range of 0 to +5, by applying a socially responsible investment process. The fund also aims to outperform its benchmark on the Net Environmental Contribution (NEC) indicator and on the 3-year headcount variation indicator, to select durable companies, particularly on environmental and/or contribution to employment criteria.

### Performance as of 29.09.2023

	Sep	2023	1 year	3 yrs	5 yrs	Inc. Annu.	2022	2021	2020	2019
Fund %	-0.3	4.4	8.1	-1.5	-2.1	26.0	2.2	-10.4	1.9	0.2
Index %	-1.1	2.1	3.2	-11.4	-5.4	11.1	1.0	-13.9	-1.2	3.0

	Corr.	Beta	Alpha	Vol.	Bench. Vol	Track. Error	Sharpe Ratio	Info Ratio	Draw Down	Bench. DD
3 years	0.5	0.3	0.9%	3.2%	4.7%	4.2%	-0.3	0.8	-14.3%	-17.5%
Inception	0.5	0.5	1.7%	2.9%	3.3%	3.1%	0.7	0.4	-14.3%	-17.5%

### Fund commentary

Long-term rates spiked in September, with a slight re-steepening on the 'Euro core' yield curves reflecting a rise in real rates. Yields on 5-year OATs hit their highest level since the end of 2008. Italian spreads widened during the period. In this high-volatility environment on both sides of the Atlantic, financials slightly outperformed corporates. Credit spreads eased on the Investment Grade segment and remained rather stable in the High-Yield sector, as the spikes observed at the end of the month were preceded by a drop. The primary market continued to recover. We took part in the issuance of a BB rated bond by Boels, Europe's second largest equipment rental company, after Loxam. We particularly appreciate the business model within this sector. We also subscribed to Wienerberger's issuance of a sustainability-linked bond (SLB), which is rated Baa3. Wienerberger is one of Europe's leading building materials manufacturers.

**No significant exposure : 29%**

## ESG follow-up, news and dialogue

### Dialogue and engagement

#### Eramet

Following the coup in Gabon at the end of August, we contacted Eramet to make sure we fully understood the potential impacts for its Manganèse activity, which generates most of the group's cash flow. We were reassured on the following points: 1) the fast pace of recovery, 2) the two 'expert calls' we made, suggesting that the coup was in fact a palace revolution that would not threaten the interests of French companies operating in the country.

### ESG controversies

#### Rexel

Our meeting with Rexel in September was an opportunity to discuss the inquiry led by the Competition and Markets Authority in 2022 over potential collusion between electrical infrastructure specialists Schneider Electric and Legrand and their distributor Rexel on sale prices in France. After the notice of complaint issued in 2022, a report (non-material according to Rexel) should be disclosed by the end of 2023. A hearing in the second half of 2024 could determine a potential fine.

### Investment strategy

Sycoyield 2026 is a maturity fund seeking yield opportunities in the bond markets. It invests mainly in high-yield corporate bonds issued in euros, with a maturity date mainly in 2026 and which are intended to be held until their maturity. The selection of issuers takes into account environmental, social and governance issues.
