Investment strategy

A stock picking fund with exposure to equities ranging between 0 and 100%

Sycamore Partners is a concentrated stock picking fund whose exposure to equities may range between 0 and 100%. The fund aims to achieve superior returns over a minimum investment horizon of five years by applying a thorough stock selection process based on the fundamental, in-depth analysis of European and international stocks, incorporating strict ESG criteria. In addition, the fund's exposure to stock markets is managed according to an opportunistic and discretionary approach. The fund seeks to exclude companies displaying significant ESG risks and focuses on those driven by sustainability considerations and that appear clearly committed to shifting towards more sustainable economic models.

Fund commentary

European stock markets fell in October, affected by rising long-term yields and declining macroeconomic indicators for the region. At the end of the month, third quarter earnings publications eased investor concerns as companies were able to prove their resilience with robust data, notably on margins. We broadened the fund's sector and regional diversification and incorporated the key convictions from our main equity strategies. These included investments in technology (ASML, Microsoft, TSMC), healthcare (Novartis, Novo Nordisk), financials (Munich Re, Intesa) and industrials (Assa Abloy, Relx), at the expense of utilities (Enel, RWE) and telecoms (Orange, Proximus). From a regional perspective, the fund's exposure to France was lowered in favour of Germany, Switzerland and the United States. The equity pivot was increased from 48% to 50% during the market correction. In October, stock selection detracted from performance with our positions in Freeport McMoran, Technip Energies, Proximus, Munich Re, and Santander affected either by declining commodity prices or by disappointing earnings publications.

ESG follow-up, news and dialogue

Dialogue and engagement

Roche

Roche is the second largest improver on employee mental health (+50% in 3 years) and entered tier 2 in the CCLA Global Mental Health 2024 Ranking. Roche gave a speech on its commitment and actions regarding mental health at the release conference of the benchmark. This includes CEO commitment and integrating well being in their governance, employee access to dedicated trainings, mental health first aiders voluntary network, quantified KPIs and targets to continuously improve their support.

Intesa San Paolo

We had an insightful and reassuring discussion with Intesa San Paolo on how the group manages reorganisation and business evolution from a human capital perspective. We recently learned that Intesa plans up to 3,000 voluntary early staff exits. The proposal would allow bank employees that qualify for pension by the end of 2028 within the framework of the solidarity fund implemented by the banking sector in Italy to early retire.

ESG controversies

Edenred

Edenred Italia: Italian prosecutor opened probe and court seized EUR 20 million asset over alleged fraudulent public tender in 2019

Microsoft

Australia: Regulatory inquiry launched over child sexual exploitation and abuse content hosted on OneDrive as eSafety puts Google, Meta, Apple on notice over online child sex abuse.
