Investment strategy

A stock picking fund with exposure to equities ranging between 0 and 100%

Sycamore Partners is a concentrated stock picking fund whose exposure to equities may range between 0 and 100%. The fund aims to achieve superior returns over a minimum investment horizon of five years by applying a thorough stock selection process based on the fundamental, in-depth analysis of European and international stocks, incorporating strict ESG criteria. In addition, the fund's exposure to stock markets is managed according to an opportunistic and discretionary approach. The fund seeks to exclude companies displaying significant ESG risks and focuses on those driven by sustainability considerations and that appear clearly committed to shifting towards more sustainable economic models.

Fund commentary

After their flying start to 2025, European equity markets corrected amid rising trade tensions and as ceasefire talks in Ukraine began to stall. Declining consumer confidence had a deep impact on consumer sectors, while threats of tariffs weighed on exporting sectors (healthcare and technology). Sector allocation within the equity portfolio, and notably its exposure to banks and utilities, was helpful to performance. In contrast, our stock selection within industrials (Prysmian, Assa Abloy), consumer goods (Darling Ingredients) and real estate (Vonovia) suffered from an unfavourable environment and rather underwhelming earnings. We took advantage of market volatility to dial up the portfolio's exposure from 54% to 56%. Having trimmed the fund's exposure to Wendel, we used the proceeds to initiate a new position in Bureau Veritas at attractive prices. Conversely, at the end of the month, we took profits on Deutsche Telekom, Novartis and Waste Connections.
