Investment strategy

A responsible selection of SMEs

Sycomore Sélection PME seeks to deliver superior returns over a 5-year investment horizon by employing a socially responsible and multithemed investment process (energy transition, healthcare, nutrition, well-being, digital...) in keeping with the United Nations' Sustainable Development Goals (SDGs). Primarily exposed to EU country equities, the fund specifically targets European SMEs that meet the PEA-PME scheme selection criteria, with no sector constraints. Our ESG exclusion and selection methodology is fully integrated into our corporate fundamental analysis framework.

Fund commentary

The massive Republican victory in the United States has plunged Europe into uncertainty and created wide sector dispersion. France and micro-caps (€<1bn) were impacted and retreated sharply. Unfortunately, these two segments are over-represented within the fund. Earnings publications were rather muted, with disappointments in the healthcare sector: Guerbet missed expectations, notably due to its business in France which was hampered by changes to the distribution system for their products. However, the company should make up for this loss of revenue during Q4 2024. Equasens is still struggling to generate growth, notably within its division dedicated to pharmacies in France. However, the company hopes for a fresh positive momentum at the end of the year. Furthermore, the portfolio benefited from another public takeover bid on its investee companies: Nexus, which specialises in hospital software in Germany, with a 40% premium on the stock price.

Market cap breakdown

SPICE, for Society & Suppliers, People, Investors, Clients, Environment is our tool for assessing a company's performance on sustainability criteria. This tool incorporates the analysis of economic, governance, environmental, social, and societal risks and opportunities covering both the company's daily operations and its product and service offer.

The analysis process covers 90 criteria and leads to a rating per letter. These 5 ratings are weighted based on the company's most material impacts*.

	Fund	Index
SPICE	3.6/5	3.4/5
S score	3.4/5	3.2/5
P score	3.5/5	3.5/5

Environmental analysis

Net Environmental Contribution (NEC) **

Degree of alignment of economic activities with the ecological transition, integrating biodiversity, climate and resources, on a standard scale from -100% for total misalignment to +100% for complete alignment, where 0% corresponds to the world economy average. The results are calculated by Sycomore AM or by the nec-initiative.org based on data for the years 2022 to 2024 according to NEC 1.0 or 1.1.
Coverage rate : fund 92% / index 78%

European taxonomy

Share of EU taxonomy-eligible company revenues provided by MSCI.

Coverage rate : fund 90% / index 98%

Temperature rise - SB2A

Induced average temperature increase by 2100 compared to pre-industrial times, according to the Science-Based 2°C Alignment methodology.

Coverage rate : fund 51%

*IPCC Sixth Assessment Report «Climate Change 2022: Mitigation of Climate Change». <https://www.ipcc.ch/assessment-report/ar6/>

Climate alignment - SBTi

Share of companies that have validated their greenhouse gas reduction targets with the Science-Based Targets initiative.

Carbon footprint

Annual greenhouse gas emissions (GHG Protocol) from upstream scopes 1, 2 and 3 per thousand euros invested, as modelled by MSCI.***.

Coverage rate : fund 78% / index 97%

	Fund	Index
kg. eq. CO ₂ /year/k€	534	1102

Fossil fuel exposure

Share of revenues from activities linked to fossil fuels from upstream to energy production, supplied by S&P Global.

Societal and social analysis

Societal contribution**

Contribution of the economic activity of companies to the resolution of major societal issues, on a scale from -100% to +100%.

Coverage rate : fund 97% / index 86%

The Good Jobs Rating - Quantity

Degree of contribution of companies to sustainable job creation - Focus on the Quantity dimension: direct, indirect and induced job creation over the last three years.

Coverage rate : fund 96% / index 90%

Gender equality ♀/σ

Percentage of women in total company headcounts and executive committees.

Staff cov. rate: fund 88% / index 85%

ExecComm cov. rate: fund 88% / index 90%

Sustainable development goals exposure

This chart represents the main exposures to the United Nations Sustainable Development Goals and their 169 targets. Exposure is defined as the opportunity, for each company, to contribute positively to reaching SDGs, providing their products and services. This exercise doesn't aim to measure the companies effective contribution to SDGs, which is computed through our societal contribution (CS) and net environmental contribution (NEC) metrics. For each invested company, activities are analysed in order to identify those which are exposed to SDGs. For a same activity, its number of targets can vary between 0 and 2. The company target exposure to one of its activities is weighted by the revenue share gained from this activity. For more details, our annual SRI report is available in our ESG documentation.

No significant exposure : 18%
