Investment strategy

A selection of European stocks that meet the PEA-PME selection criteria

Sycamore Selection PME aims to achieve significant performance over a minimum recommended investment horizon of five years, investing primarily in listed companies that meet the PEA-PME selection criteria. With 60% to 100% exposure to EU equities, the fund specifically targets the European mid-cap segment (SMEs and mid-cap companies) that meet the PEA-PME selection criteria, with no sector constraints. Our ESG exclusion and selection methodology is fully integrated into our fundamental analysis of companies.

Fund commentary

The ceasefire agreed on April 8th, and the current peace talks between the United States and Iran significantly eased investors' concerns, allowing European equity markets to rebound and wipe most of the losses recorded in March. Our technology overweight proved particularly positive for the fund and our picks within the sector rose almost 15% during the month. We benefited from the sustained rally across the semi-conductor value chain (Elmos, Semco, Jenoptik, Suss and PVA Tepla) and from improved circumstances for companies that had been under pressure since the beginning of the year owing to AI-related disruption risks. These included Aubay, as well as Planisware, which reported strong Q1 earnings, with turnover up 13.6% and a buoyant sales momentum that will allow the company to confirm its 2026 targets with some confidence. Mersen made up for its lag and contributed to the fund's performance. The company had suffered in March after publishing its annual earnings but is poised to benefit gradually from the recovery in SiC technology and solar power markets and from the ramp-up of its growth drivers in the data center and nuclear industries. Lu-Ve and 2G Energy are also benefiting from attractive data center related opportunities and rallied over the period, as did Pfisterer, which rose on the back of robust 2025 earnings and the upward revision of its mid-term targets, notably thanks to growing investments in power grids.

SPICE*, for Society & Suppliers, People, Investors, Clients, Environment is our tool for assessing a company's performance on sustainability criteria. This tool incorporates the analysis of economic, governance, environmental, social, and societal risks and opportunities covering both the company's daily operations and its product and service offer.

The analysis process covers 90 criteria and leads to a rating per letter. These 5 ratings are weighted based on the company's most material impacts.

	Fund	Index
SPICE	3.5/5	3.4/5
S score	3.3/5	3.2/5
P score	3.5/5	3.5/5

Environmental analysis

Net Environmental Contribution (NEC)

Degree of alignment of economic activities with the ecological transition, integrating biodiversity, climate and resources, on a standard scale from -100% for total misalignment to +100% for complete alignment, where 0% corresponds to the world economy average. The results are calculated by Sycomore AM or by the nec-initiative.org based on data for the years 2022 to 2024 according to NEC 1.0 or 1.1.
 Coverage rate : fund 81% / index 81%

European taxonomy

Share of EU taxonomy-aligned company revenues provided by MSCI.

Coverage rate : fund 91% / index 99%

Carbon intensity of sales **

Weighted average of annual greenhouse gas emissions (GHG Protocol) from scopes 1, 2, 3 upstream and downstream as modelled by MSCI per annual sales in k€. Coverage rate : fund 89% / index 97%

	Fund	Index
kg. eq. CO ₂ /k€	802	1312

Climate alignment - SBTi

Share of companies that have validated their greenhouse gas reduction targets with the Science-Based Targets initiative.

Fossil fuel exposure

Share of revenues from activities linked to fossil fuels from upstream to energy production, supplied by MSCI.

Societal and social analysis

Societal contribution

Contribution of the economic activity of companies to the resolution of major societal issues, on a scale from -100% to +100%.

Coverage rate : fund 94% / index 86%

Gender equality ♀/♂

Percentage of women in total company headcounts and executive committees.

Staff cov. rate: fund 91% / index 97%

ExecComm cov. rate: fund 83% / index 96%

Staff growth**

Cumulated growth in company headcounts over the past three financial years (data unadjusted in the event of acquisitions, excluding transformational deals).

Coverage rate : fund 85% / index 89%

Sources: portfolio companies, Sycomore AM, Bloomberg, Science Based Target, Moody's and MSCI. Methodologies differ between issuers and between extra-financial data providers.*ESG-SPICE correspondence: E=E, S=(P+S+C)/3, G is a sub-part of I, which represents 40%.** The fund has committed to outperforming the benchmark on these two indicators. The other indicators are shown for illustrative purposes. All indicators mentioned are calculated on the invested portfolio (excluding cash, derivatives, and mutual funds).

Sustainable development goals exposure

No significant exposure : 71% % of companies with no exposure (neutral)
Non-alignment : 11% % of companies misaligned or strongly misaligned

ESG follow-up, news and dialogue

Dialogue and engagement

Chargeurs

We spoke to Chargeurs ahead of its Annual General Meeting. Among the subjects discussed were remuneration, regulated agreements, the independence of the Board and the combination of voting on discharge and approval of the financial statements. The dialogue was marked by a good quality of listening, and our interlocutors seem to have direct and regular exchanges with the Board. Nevertheless, we regret the absence of any significant changes compared with 2025.

ESG controversies
