Investment strategy

Sycomore Allocation Patrimoine, is a feeder fund of Sycomore Next Generation, sub-funds of Sycomore Funds Sicav (Luxembourg). Sycomore Next Generation is a flexible, multi-asset SRI fund that combines Sycomore's proven expertise in responsible stock and bond picking and international asset allocation, to achieve performance and diversification. The fund's investment process draws from a thorough fundamental analysis, combined with the ESG analysis of companies and countries, with an additional macroeconomic overlay. Managed actively, the fund's exposure to equities (0-50%) and fixed income (0-100%) - including corporate and sovereign debt - is designed to enhance its risk-return profile, to achieve steady capital growth. Employing a multi-themed SRI approach, the fund seeks to invest in companies addressing social, environmental, and technological challenges as highlighted by the United Nations' Sustainable Development Goals, for the generations to come.

Fund commentary

As the year draws to a close, the Fed and the ECB have adopted diverging policies to reflect a different economic momentum. In Europe, growth remains lacklustre and inflation continues to ebb gradually, while in the United States, growth is proving resilient and core inflation has stopped decreasing. As a result, until Donald Trump effectively takes office, the Fed has preferred to soften rate cutting expectations for 2025. After rallying in November immediately after the US Presidential election, markets were in a "wait-and-see" situation in December, pending Trump's second term in office. We maintained high investment levels within the fund, with equity exposure ranging between 27% and 30% during the month. We also took advantage of rising long-term yields to extend the fund's duration, while maintaining our bias in favour of corporate credit.

The labels aim to guide investors in identifying sustainable and responsible investments. The composition of the management team is subject to change without notice. Before investing, first consult the Fund's KID available on our www.sycomore-am.com website.

SPICE, for Society & Suppliers, People, Investors, Clients, Environment is our tool for assessing a company's performance on sustainability criteria. This tool incorporates the analysis of economic, governance, environmental, social, and societal risks and opportunities covering both the company's daily operations and its product and service offer.

The analysis process covers 90 criteria and leads to a rating per letter. These 5 ratings are weighted based on the company's most material impacts*.

	Fund	Index
SPICE	3.4/5	3.5/5
S score	3.3/5	3.3/5
P score	3.5/5	3.7/5
I score	3.4/5	3.7/5
C score	3.5/5	3.5/5

ESG*	3.3/5
Environment	3.3/5
Social	3.3/5
Governance	3.3/5

Environmental analysis

Net Environmental Contribution (NEC)**

Degree of alignment of economic activities with the ecological transition, integrating biodiversity, climate and resources, on a standard scale from -100% for total misalignment to +100% for complete alignment, where 0% corresponds to the world economy average. The results are calculated by Sycomore AM or by the nec-initiative.org based on data for the years 2022 to 2024 according to NEC 1.0 or 1.1.

Coverage rate : fund 93% / index 98%

European taxonomy

Share of EU taxonomy-eligible company revenues provided by MSCI.

Coverage rate : fund 65%

Climate alignment - SBTi

Share of companies that have validated their greenhouse gas reduction targets with the Science-Based Targets initiative.

Fossil fuel exposure

Share of revenues from activities linked to fossil fuels from upstream to energy production, supplied by S&P Global.

Carbon footprint

Annual greenhouse gas emissions (GHG Protocol) from upstream scopes 1, 2 and 3 per thousand euros invested, as modelled by MSCI.***.

Coverage rate : fund 56%

Societal and social analysis

Societal contribution**

Contribution of the economic activity of companies to the resolution of major societal issues, on a scale from -100% to +100%.

Coverage rate : fund 97% / index 98%

Sources: portfolio companies, Sycomore AM, Bloomberg, Science Based Targets, Iceberg Data Lab, MSCI, Moody's, MSCI and S&P Global. Methodologies differ between issuers and between extra-financial data providers.*ESG-SPICE correspondence: E=E, S=(P+S+C)/3, G is a sub-part of I, which represents 40%. **The fund has committed to outperforming the Euro Stoxx on these two indicators. The other indicators are shown for illustrative purposes.***Footprint allocated prorata to enterprise value, cash included.

Sustainable development goals exposure

This chart represents the main exposures to the United Nations Sustainable Development Goals and their 169 targets. Exposure is defined as the opportunity, for each company, to contribute positively to reaching SDGs, providing their products and services. This exercise doesn't aim to measure the companies effective contribution to SDGs, which is computed through our societal contribution (CS) and net environmental contribution (NEC) metrics. For each invested company, activities are analysed in order to identify those which are exposed to SDGs. For a same activity, its number of targets can vary between 0 and 2. The company target exposure to one of its activities is weighted by the revenue share gained from this activity. For more details, our annual SRI report is available in our ESG documentation.

No significant exposure : 25%

ESG follow-up, news and dialogue

Dialogue and engagement

Nvidia

We participated to Nvidia's quarterly Human Rights investor call during which they mentioned they were finishing their Human Right Impact Assessment. However they don't seem to be able to track the end-users (including in conflict areas) of their products at the moment. The company shall publish more elements on this aspect in June 2025.

Sanofi

We discussed the impact of new manufacturing tools for the workforce and the measures set up by the group for impacted employees, notably in France, where a Job and Careers Management plan has been set up. Furthermore, in response to our questions on the impact of the Biosecure Act in the US, if it were to be adopted. The company indicated it was working on the issue but that the impact, if any, would be minor.

ESG controversies

Veolia

Veolia, Suez and Saur are alleged to have reached an agreement to win a tender issued by Siaap. The tender was for an upgrade of the Seine-Aval des Yvelines sewage treatment facility.

Microsoft

In the United States, the Federal Trade Commission is investigating Microsoft in a wide-ranging probe into the company's products, from Cloud to AI, after several cybersecurity incidents involving the group.

Votes

1 / 1 voted general assembly over the month.

Details on our votes are available here the day following the company's AGM [Here](#).

Additional disclaimers: although the fund's performances are partly driven by the ESG indicators of portfolio holdings, these are not the sole determining factor. Marketing communication.
