Investment strategy

Sycomore Allocation Patrimoine, is a feeder fund of Sycomore Next Generation, sub-funds of Sycomore Funds Sicav (Luxembourg). Sycomore Next Generation is a flexible, multi-asset SRI fund that combines Sycomore's proven expertise in responsible stock and bond picking and international asset allocation, to achieve performance and diversification. The fund's investment process draws from a thorough fundamental analysis, combined with the ESG analysis of companies and countries, with an additional macroeconomic overlay. Managed actively, the fund's exposure to equities (0-50%) and fixed income (0-100%) - including corporate and sovereign debt - is designed to enhance its risk-return profile, to achieve steady capital growth. Employing a multi-themed SRI approach, the fund seeks to invest in companies addressing social, environmental, and technological challenges as highlighted by the United Nations' Sustainable Development Goals, for the generations to come.

Fund commentary

Large US tech companies continued to rally, supported by a favourable earnings momentum and strong investor inflows. In contrast, Macron's surprise decision to dissolve the French Parliament caused European stock markets to plunge, with a compounded impact on small and mid-caps. Beyond the election, we believe the capacity for effective government and for addressing the issue of the yawning public debt has been weakened. In this environment, we trimmed our exposure to European equities, and notably to France. We have also hedged the risks of widening credit spreads in both French sovereign and corporate bonds. We shall continue to adjust our positions over the next few weeks, also bearing in mind that market volatility is likely to generate attractive investment opportunities, both in equities and corporate bonds.

The labels aim to guide investors in identifying sustainable and responsible investments. The composition of the management team is subject to change without notice. Before investing, first consult the Fund's KID available on our www.sycomore-am.com website.

SPICE, for Society & Suppliers, People, Investors, Clients, Environment is our tool for assessing a company's performance on sustainability criteria. This tool incorporates the analysis of economic, governance, environmental, social, and societal risks and opportunities covering both the company's daily operations and its product and service offer.

The analysis process covers 90 criteria and leads to a rating per letter. These 5 ratings are weighted based on the company's most material impacts*.

	Fund	Index
SPICE	3.4/5	3.6/5
S score	3.3/5	3.4/5
P score	3.4/5	3.6/5

Environmental analysis

Net Environmental Contribution (NEC)**

Degree of alignment of the economic models with the ecological transition, integrating biodiversity and climate, on a scale running from -100% for eco-obstruction to +100% for eco-solution, where 0% equates to the average environmental impact of the global economy. The results are expressed in NEC 1.0 (nec-initiative.org) calculated by Sycomore AM based from 2018 to 2021.
Coverage rate : fund 98% / index 99%

European taxonomy

Percentage of revenues derived from eligible activities to the EU taxonomy

Coverage rate : fund 62%

Climate alignment - SBTi

Share of companies that have validated their greenhouse gas reduction targets with the Science-Based Targets initiative.

Fossil fuel exposure

Percentage of income derived from the three fossil energies.

Carbon footprint

Annual greenhouse gas emissions (GHG Protocol) from upstream scopes 1, 2 and 3 per thousand euros invested***.

Coverage rate : fund 54%

Societal and social analysis

Societal contribution**

Contribution of the economic activity of companies to the resolution of major societal issues, on a scale from -100% to +100%.
Coverage rate : fund 99% / index 99%

Sycomore AM does not guarantee the accuracy, completeness, and exhaustiveness of the extra-financial reports.*ESG-SPICE correspondence: E=E, S=(P+S+C)/3, G is a sub-part of I, which represents 40%. **The fund has committed to outperforming the Euro Stoxx on these two indicators. The other indicators are shown for illustrative purposes.***Footprint allocated prorata to enterprise value, cash included.

Sustainable development goals exposure

This chart represents the main exposures to the United Nations Sustainable Development Goals and their 169 targets. Exposure is defined as the opportunity, for each company, to contribute positively to reaching SDGs, providing their products and services. This exercise doesn't aim to measure the companies effective contribution to SDGs, which is computed through our societal contribution (CS) and net environmental contribution (NEC) metrics. For each invested company, activities are analysed in order to identify those which are exposed to SDGs. For a same activity, its number of targets can vary between 0 and 2. The company target exposure to one of its activities is weighted by the revenue share gained from this activity. For more details, our annual SRI report is available in our ESG documentation.

No significant exposure : 25%
