Investment strategy

Sycomore Allocation Patrimoine, is a feeder fund of Sycomore Next Generation, sub-funds of Sycomore Funds Sicav (Luxembourg). Sycomore Next Generation is a flexible, multi-asset SRI fund that combines Sycomore's proven expertise in responsible stock and bond picking and international asset allocation, to achieve performance and diversification. The fund's investment process draws from a thorough fundamental analysis, combined with the ESG analysis of companies and countries, with an additional macroeconomic overlay. Managed actively, the fund's exposure to equities (0-50%) and fixed income (0-100%) - including corporate and sovereign debt - is designed to enhance its risk-return profile, to achieve steady capital growth. Employing a multi-themed SRI approach, the fund seeks to invest in companies addressing social, environmental, and technological challenges as highlighted by the United Nations' Sustainable Development Goals, for the generations to come.

Fund commentary

The prospect of a trade agreement between the United States and several of its partners, such as Europe and Japan, allowed for an upbeat market environment in July. We have kept a high exposure to risk assets - both equities and corporate bonds - to leverage this positive news flow. In the absence of decisions from central banks, markets are hanging on for the Fed to lower its rates and for the ECB to make its final 25-bp cut. Yield curves continued to steepen amid lower demand for sovereign bonds. In contrast, corporate bonds remain very popular with investors and credit spreads have contracted further. This affected both categories, Investment Grade as well as High Yield. Capital flows from investors were also elevated, clearly supporting corporate bond valuations. The first corporate earnings publications demonstrated the resilience of auto equipment manufacturers, including Forvia and OP Mobility, lifting their bonds during the month. OP Mobility tapped the primary market with a bond that was 10 times over-subscribed, confirming the strength of investor demand at present. Within the equity envelope, financials continued to contribute to performance, as did the technology sector.

SPICE, for Society & Suppliers, People, Investors, Clients, Environment is our tool for assessing a company's performance on sustainability criteria. This tool incorporates the analysis of economic, governance, environmental, social, and societal risks and opportunities covering both the company's daily operations and its product and service offer.

The analysis process covers 90 criteria and leads to a rating per letter. These 5 ratings are weighted based on the company's most material impacts*.

	Fund	Index
SPICE	3.4/5	3.5/5
S score	3.3/5	3.3/5
P score	3.5/5	3.7/5

Societal contribution

Sources: portfolio companies, Sycomore AM, Bloomberg, Science Based Targets, Iceberg Data Lab, MSCI, Moody's, MSCI and S&P Global. Methodologies differ between issuers and between extra-financial data providers.*ESG-SPICE correspondence: E=E, S=(P+S+C)/3, G is a sub-part of I, which represents 40%. **The fund has committed to outperforming the Euro Stoxx on these two indicators. The other indicators are shown for illustrative purposes.

Sustainable development goals exposure

This chart represents the main exposures to the United Nations Sustainable Development Goals and their 169 targets. Exposure is defined as the opportunity, for each company, to contribute positively to reaching SDGs, providing their products and services. This exercise doesn't aim to measure the companies effective contribution to SDGs, which is computed through our societal contribution (CS) and net environmental contribution (NEC) metrics. For each invested company, activities are analysed in order to identify those which are exposed to SDGs. For a same activity, its number of targets can vary between 0 and 2. The company target exposure to one of its activities is weighted by the revenue share gained from this activity. For more details, our annual SRI report is available in our ESG documentation.

No significant exposure : 23%

ESG controversies

Seb

Three NGOs have filed a complaint against Seb and its subsidiary, Tefal, for alleged misleading commercial practices. They claim that the company misled buyers by knowingly selling its Teflon pans as being "safe" despite the environmental and health hazards caused by the PTFE compound, an "eternal pollutant" unaffected by the recent French law on PFAS chemicals.

Renault

Renault is under investigation by the Court of Nanterre after the French Fraud Authority (DGCCRF) issued a warning on the TCe 1.2L (2012–2016) engine that was installed on 130,000 vehicles. A malfunction is alleged to cause excess oil consumption and engine failure. Legal action was initially filed in 2023. Renault has denied any wrongdoing, but the investigation is focusing on client information and financial compensation for repairs.

Votes

0 / 0 voted general assembly over the month.

Details on our votes are available here the day following the company's AGM [Here](#).
