Investment strategy

A responsible selection of Eurozone equities based on proprietary ESG analysis

Sycamore Sélection Responsable is a conviction-driven fund which aims to deliver financial returns above those of the EuroStoxx Total Return index over a minimum investment horizon of five years, by applying a multithemed socially responsible investment process (energy transition, health, nutrition, digital, etc.) in keeping with the United Nations' Sustainable Development Goals. The fund mainly invests in the capital of quality Eurozone companies, which benefit from sustainable development opportunities and whose intrinsic valuation is believed to be above their stock market value.

Fund commentary

In April, Eurozone equity markets sold off on the back of statements made by the US President on “reciprocal tariffs” during Liberation Day, before recovering substantially after announcements of a 90-day pause on their actual implementation. The start of the earnings season also helped refocus investors’ attention on company performances, with many reporting very reassuring earnings. After maintaining a defensive stance within the portfolio at the start of the year, we used the sell-off in the early days of April to strengthen our equity exposure and make arbitrage decisions. We sold several defensive stocks (popular with investors in the current environment but valuations offer little upside potential) in favour of more cyclical plays (some had dropped by 20-25% from their recent highs). This valuation discipline and flexibility in terms of portfolio positioning supported the fund’s absolute and relative performances in April and will be essential for navigating a market environment likely to remain unstable over the next few months.

SPICE, for Society & Suppliers, People, Investors, Clients, Environment is our tool for assessing a company's performance on sustainability criteria. This tool incorporates the analysis of economic, governance, environmental, social, and societal risks and opportunities covering both the company's daily operations and its product and service offer.

The analysis process covers 90 criteria and leads to a rating per letter. These 5 ratings are weighted based on the company's most material impacts*.

	Fund	Index
SPICE	3.7/5	3.5/5
S score	3.5/5	3.3/5
P score	3.8/5	3.7/5
I score	3.7/5	3.7/5

Environmental analysis

Net Environmental Contribution (NEC) **

Degree of alignment of economic activities with the ecological transition, integrating biodiversity, climate and resources, on a standard scale from -100% for total misalignment to +100% for complete alignment, where 0% corresponds to the world economy average. The results are calculated by Sycomore AM or by the nec-initiative.org based on data for the years 2022 to 2024 according to NEC 1.0 or 1.1.
Coverage rate : fund 100% / index 98%

European taxonomy

Share of EU taxonomy-aligned company revenues provided by MSCI.
Coverage rate : fund 100% / index 99%

Indicator	Value
Fund	8%
Index	8%

Temperature rise - SB2A

Inducted average temperature increase by 2100 compared to pre-industrial times, according to the Science-Based 2°C Alignment methodology.
Coverage rate : fund 100%

*IPCC Sixth Assessment Report «Climate Change 2022: Mitigation of Climate Change». <https://www.ipcc.ch/assessment-report/ar6/>

Climate alignment - SBTi

Share of companies that have validated their greenhouse gas reduction targets with the Science-Based Targets initiative.

Indicator	Value
Fund	73%
Index	65%

2°C Well below 2°C 1.5°C

Carbon intensity**

Annual greenhouse gas emissions (GHG Protocol) from upstream scopes 1, 2 and 3 per thousand euros invested, as modelled by MSCI. Intensity allocated pro rata to sales.
Coverage rate : fund 100% / index 99%

kg. eq. CO ₂ /year/k€	Fund	Index
	801	1079

Fossil fuel exposure

Share of revenues from activities linked to fossil fuels from upstream to energy production, supplied by S&P Global.

Indicator	Value
Fund	0%
Index	3%

Coal Oil Gas

Biodiversity footprint

Artificialised surface area in m² MSA per k€ invested***, measured by the Corporate Biodiversity Footprint. Mean Species Abundance (MSA) is assessed in comparison with the original state of the environment.
Coverage rate : fund 100% / index 97%

m ² .MSA/k€	Fund	Index
	-24	0

Societal and social analysis

Societal contribution

Contribution of the economic activity of companies to the resolution of major societal issues, on a scale from -100% to +100%.
Coverage rate : fund 100% / index 98%

Human rights policy

Percentage of portfolio companies that have drawn up a Human Rights policy.
Coverage rate : fund 100% / index 99%

Gender equality ♀/σ

Percentage of women in total company headcounts and executive committees.
Staff cov. rate: fund 100% / index 99%
ExecComm cov. rate: fund 100% / index 100%

Sources: portfolio companies, Sycomore AM, Bloomberg, Science Based Targets, Iceberg Data Lab, MSCI, Moody's, MSCI and S&P Global. Methodologies differ between issuers and between extra-financial data providers.*ESG-SPICE correspondence: E=E, S=(P+S+C)/3, G is a sub-part of I, which represents 40%.**The fund has committed to outperforming the benchmark on these two indicators. The other indicators are shown for illustrative purposes. ***Footprint allocated prorata to enterprise value, cash included. (MSA= Mean Species Abundance / CBF = Carbon Biodiversity Footprint / IDL = Iceberg Data Lab).

Sustainable development goals exposure

This chart represents the main exposures to the United Nations Sustainable Development Goals and their 169 targets. Exposure is defined as the opportunity, for each company, to contribute positively to reaching SDGs, providing their products and services. This exercise doesn't aim to measure the companies effective contribution to SDGs, which is computed through our societal contribution (CS) and net environmental contribution (NEC) metrics. For each invested company, activities are analysed in order to identify those which are exposed to SDGs. For a same activity, its number of targets can vary between 0 and 2. The company target exposure to one of its activities is weighted by the revenue share gained from this activity. For more details, our annual SRI report is available in our ESG documentation.

No significant exposure : 19%

ESG follow-up, news and dialogue

Dialogue and engagement

Renault

We had a very constructive discussion with the company, during which we addressed the new directorships proposed during the AGM, the non-financial factors included within the CEO's short-term remuneration, and the group's emission reduction targets. We welcomed the integration of a published biodiversity strategy to the STI criteria. The Group has also informed us that it is still waiting for SBTi to approve its automotive framework.

Danone

In a recent meeting with Danone, we discussed the issues of corporate culture and, more broadly, human capital. This exchange was also an opportunity to discuss the company's position regarding changes to the Nutriscore.
