Investment strategy

A responsible selection of Eurozone equities based on proprietary ESG analysis

Sycamore Sélection Responsable is a core, conviction-driven sustainable investment fund. It invests in equities from the eurozone (up to 10% outside the eurozone) without sectoral or geographic restrictions and without a structural style bias. This selection process is based on a proprietary financial and non-financial fundamental analysis (SPICE model). It thus selects companies that benefit from sustainable development opportunities and whose market valuation does not reflect their intrinsic value. The fund aims to deliver a net-of-fees return that outperforms the MSCI EMU Net Return* benchmark index over a minimum five-year horizon, while maintaining a weighted average SPICE score higher than the weighted average SPICE score of the initial universe.

Performance as of 30.04.2026

*Index change on 1 March 2026. Since then, performance is chained with the previous index. (Eurostoxx NR).

Fund commentary

Eurozone equity markets rebound sharply in April after correcting in March. Despite expected downward revisions to global economic growth owing to the conflict in the Middle East, cyclical stocks performed particularly well over the past month. Indeed, portfolio holdings within the technology and industrial sectors benefiting from AI spending were the top performers: semi-conductor players ASMi and Infineon, and Prysmian, Siemens Energy, Schneider within the electrification theme. Automotive stocks (notably Renault after the release of much better-than-expected sales figures for Q1) and banks also followed a similar trend. Within the portfolio, we made a few arbitrage trades, adding to our holdings in Unicredit and Airbus, while trimming Société Générale and Safran. Finally, Amplifon was exited from the portfolio.

SPICE*, for Society & Suppliers, People, Investors, Clients, Environment is our tool for assessing a company's performance on sustainability criteria. This tool incorporates the analysis of economic, governance, environmental, social, and societal risks and opportunities covering both the company's daily operations and its product and service offer.

The analysis process covers 90 criteria and leads to a rating per letter. These 5 ratings are weighted based on the company's most material impacts.

	Fund	Index
SPICE	3.7/5	3.6/5
S score	3.5/5	3.4/5
P score	3.8/5	3.7/5
I score	3.8/5	3.7/5

Environmental analysis

Net Environmental Contribution (NEC) **

Degree of alignment of economic activities with the ecological transition, integrating biodiversity, climate and resources, on a standard scale from -100% for total misalignment to +100% for complete alignment, where 0% corresponds to the world economy average. The results are calculated by Sycomore AM or by the nec-initiative.org based on data for the years 2022 to 2024 according to NEC 1.0 or 1.1.
Coverage rate : fund 100% / index 99%

European taxonomy

Share of EU taxonomy-aligned company revenues provided by MSCI.

Coverage rate : fund 100% / index 100%

Carbon intensity of sales **

Weighted average of annual greenhouse gas emissions (GHG Protocol) from scopes 1, 2, 3 upstream and downstream as modelled by MSCI per annual sales in k€.

Coverage rate : fund 100% / index 99%

	Fund	Index
kg. eq. CO ₂ /k€	1058	1096

Climate alignment - SBTi

Share of companies that have validated their greenhouse gas reduction targets with the Science-Based Targets initiative.

Fossil fuel exposure

Share of revenues from activities linked to fossil fuels from upstream to energy production, supplied by MSCI.

Societal and social analysis

Societal contribution

Contribution of the economic activity of companies to the resolution of major societal issues, on a scale from -100% to +100%.

Coverage rate : fund 100% / index 100%

Human rights policy

Percentage of portfolio companies that have drawn up a Human Rights policy.

Coverage rate : fund 100% / index 98%

Gender equality ♀/♂

Percentage of women in total company headcounts and executive committees.

Staff cov. rate: fund 100% / index 99%

ExecComm cov. rate: fund 100% / index 99%

Sources: portfolio companies, Sycomore AM, Bloomberg, Science Based Target, Moody's and MSCI. Methodologies differ between issuers and between extra-financial data providers.*ESG-SPICE correspondence: E=E, S=(P+S+C)/3, G is a sub-part of I, which represents 40%.** The fund has committed to outperforming the benchmark on these two indicators. The other indicators are shown for illustrative purposes. All indicators mentioned are calculated on the invested portfolio (excluding cash, derivatives, and mutual funds).

Sustainable development goals exposure

No significant exposure : 60% % of companies with no exposure (neutral)
Non-alignment : 6% % of companies misaligned or strongly misaligned

ESG follow-up, news and dialogue

Dialogue and engagement

Sanofi

As part of a pre-GM dialogue with the company, we discussed the former CEO's remuneration, as well as the strategic dialogue between the former CEO and the Board of Directors, which, according to the latter, "could be improved". Improving the quality of this dialogue will be an important part of the remit of the new CEO, Belen Garijo.

Danone

We continued our collaborative dialogue with Danone on the subject of just transition. The exchange enabled us to make a very positive assessment of the 2025 objectives of the Danone Impact Journey and to present the 2030 roadmap around Health, Nature and People. The main obstacles concern regenerative agriculture outside Europe and the regulatory framework for plastics.

ESG controversies
