Investment strategy

A responsible and opportunistic selection of European bonds based on proprietary ESG analysis

Sycamore Sélection Crédit aims to deliver financial returns above those of the Bloomberg Euro Aggregate Corporate Ex-Financials TR over a minimum investment horizon of five years, within a modified duration range of 0 to +5, by applying a socially responsible investment process. The fund also aims to outperform its benchmark on the Net Environmental Contribution (NEC) indicator and on the 3-year headcount variation indicator, to select durable companies, particularly on environmental and/or contribution to employment criteria.

Fund commentary

Interest rates retreated in June after the US and Iran signed a framework agreement aimed at ending the conflict in the Middle East, which includes the re-opening of the Strait of Hormuz. Brent oil prices fell back to around \$70 and inflation forecasts returned to levels close to those observed in February. Credit indices in € delivered positive returns in June owing to relatively stable spreads. In a widely anticipated move, the ECB raised its key rates by 25 bp. The market is still anticipating a further hike before the end of the year. The primary market was active in June. As part of its 5-year £33 billion investment plan, power company South Scottish Energy (SSE) issued a €650-million hybrid bond with a first call in 5 years. This issuance is rated BBB-, which is two grades below SSE's credit rating.

SPICE*, for Society & Suppliers, People, Investors, Clients, Environment is our tool for assessing a company's performance on sustainability criteria. This tool incorporates the analysis of economic, governance, environmental, social, and societal risks and opportunities covering both the company's daily operations and its product and service offer.

The analysis process covers 90 criteria and leads to a rating per letter. These 5 ratings are weighted based on the company's most material impacts.

	Fund	Index
SPICE	3.4/5	3.4/5
S score	3.4/5	3.1/5
P score	3.4/5	3.5/5

Environmental analysis

Net Environmental Contribution (NEC)**

Degree of alignment of economic activities with the ecological transition, integrating biodiversity, climate and resources, on a standard scale from -100% for total misalignment to +100% for complete alignment, where 0% corresponds to the world economy average. The results are calculated by Sycomore AM or by the nec-initiative.org based on data for the years 2022 to 2024 according to NEC 1.0 or 1.1.

Coverage rate : fund 93% / index 81%

Carbon intensity of sales **

Weighted average of annual greenhouse gas emissions (GHG Protocol) from scopes 1, 2, 3 upstream and downstream as modelled by MSCI per annual sales in k€.

Sustainable development goals exposure

This graph represents the main exposures to the United Nations Sustainable Development Goals. Exposure is defined as the opportunity, for each company, to contribute positively to reaching SDGs, providing their products and services. This exercise doesn't aim to measure the companies effective contribution to SDGs, which is computed through our societal contribution (CS) and net environmental contribution (NEC) metrics.

A company may be exposed to several SDGs to varying degrees: strongly aligned, aligned, neutral, not aligned, or strongly not aligned. The methodology is based on data provided by MSCI.

For more details, our annual SRI report is available in our ESG documentation.

No significant exposure : 59% *% of companies with no exposure (neutral)*
Non-alignment : 1% *% of companies misaligned or strongly misaligned*

ESG follow-up, news and dialogue

Dialogue and engagement

Imerys

We discussed our ESG approach with Imerys, and more specifically our methodology for assessing climate alignment in setting the group's post-2030 decarbonization targets.

Renault

The discussions focused on formalizing the issues related to a Just Transition at Renault and on the value of a dedicated page linking the information already available in the URD, the climate report, and the duty of care. Renault provided details on its work regarding skills, the supply chain, suppliers, electrification, and competitiveness constraints, with plans to publish a report on the Just Transition on its website by 2026–2027.

ESG controversies

Veolia

Veolia's wastewater treatment operations in Milwaukee are the subject of allegations regarding maintenance and governance issues.

Inpost

Allegations of sudden pay cuts, imposed rate changes, and heavy fines are said to have resulted in significant financial losses for couriers in Edinburgh.

Additional disclaimers: although the fund's performances are partly driven by the ESG indicators of portfolio holdings, these are not the sole determining factor. Marketing communication.
