Investment strategy

A responsible and opportunistic selection of European bonds based on proprietary ESG analysis

Sycomore Sélection Crédit aims to deliver financial returns above those of the Barclays Capital Euro Corporate ex-Financial Bonds (reinvested coupons) over a minimum investment horizon of five years, within a modified duration range of 0 to +5, by applying a socially responsible investment process. The fund also aims to outperform its benchmark on the Net Environmental Contribution (NEC) indicator and on the 3-year headcount variation indicator, to select durable companies, particularly on environmental and/or contribution to employment criteria.

Fund commentary

The upward pressure on long-term rates continued into the first half of January. Ten-year yields on US Treasury bonds almost reached 4.80%, before retreating during the second half of the month. Yields on 10-year German bonds followed a similar trend, fuelled by rising inflation forecasts. France's risk premium declined. Spreads narrowed during the month: BBB-rated bonds contracted around 5 bp, while the BB segment shrunk by around 10 bp. The primary market was dynamic with some deals offering an attractive issuance premium. To fund its hybrid bond maturing at the end of the year, La Poste issued a new hybrid tranche over 6 years, rated BB+ and bearing a highly attractive coupon of 5%. Ipsos, now rated Baa3 by Moody's and BBB by Fitch, issued a 5-year bond yielding 3.80%. Elior convinced the market it was recovering and was able to refinance its 2026 debt with a new 2030 bond bearing a coupon of 5.625%, compared with 3.75% for the former.

SPICE, for Society & Suppliers, People, Investors, Clients, Environment is our tool for assessing a company's performance on sustainability criteria. This tool incorporates the analysis of economic, governance, environmental, social, and societal risks and opportunities covering both the company's daily operations and its product and service offer.

The analysis process covers 90 criteria and leads to a rating per letter. These 5 ratings are weighted based on the company's most material impacts*.

Sustainable development goals exposure

This chart represents the main exposures to the United Nations Sustainable Development Goals and their 169 targets. Exposure is defined as the opportunity, for each company, to contribute positively to reaching SDGs, providing their products and services. This exercise doesn't aim to measure the companies effective contribution to SDGs, which is computed through our societal contribution (CS) and net environmental contribution (NEC) metrics. For each invested company, activities are analysed in order to identify those which are exposed to SDGs. For a same activity, its number of targets can vary between 0 and 2. The company target exposure to one of its activities is weighted by the revenue share gained from this activity. For more details, our annual SRI report is available in our ESG documentation.

ESG follow-up, news and dialogue

Dialogue and engagement

Banijay

We engaged Banijay on the implementation of a policy that would limit the adverse effects of gaming on the mental health of its audience. We also requested more detailed information on the means available for the development of an ESG policy applicable to manufacturing sites. A "Head of ESG" was hired to handle these aspects.

Quadiant

Quadiant gave us reassuring news on the company's new procedure for changing its statutory auditors. The latter will change at the next AGM and invitations to tender will be issued every 6 years. We also received more details on the role of Daniel Kretinsky, who does not wish to be represented on the board. We had confirmation that the carbon emission reduction targets are included in the CEO's compensation package.

ESG controversies

Crédit Agricole

Media companies Disclose, France 24, and RFI are investigating the environmental and social impacts of Repsol's activities in Latin America as well as the backing provided by Amundi, the Credit Agricole group's investment subsidiary.

Stellantis

Jeep (subsidiary of Stellantis) and 14 car dealers had to pay damages worth €60,000 for showing ads for SUVs in protected landscapes.
