Investment strategy

A responsible and opportunistic selection of European bonds based on proprietary ESG analysis

Sycamore Sélection Crédit aims to deliver financial returns above those of the Barclays Capital Euro Corporate ex-Financial Bonds (reinvested coupons) over a minimum investment horizon of five years, within a modified duration range of 0 to +5, by applying a socially responsible investment process. The fund also aims to outperform its benchmark on the Net Environmental Contribution (NEC) indicator and on the 3-year headcount variation indicator, to select durable companies, particularly on environmental and/or contribution to employment criteria.

Fund commentary

Donald Trump's election caused the Euro to depreciate further against the dollar, a move further fuelled by expectations of aggressive rate cuts by the ECB in 2025. US long-term yields returned to levels observed at the end of October and Eurozone sovereign yields fell. The French risk premium rose, however, to account for growing political risks. Credit spreads widened slightly on the BBB segment but narrowed in HY. The primary market remained very dynamic as many issuers took advantage of attractive conditions to refinance their debt ahead of maturity. The cable company Prysmian issued a 7-year bond with a BBB- rating bearing a coupon close to 4%, the proceeds of which will fund a takeover in the United States. We took part in this issuance. Roquette, the French producer of plant-based ingredients, launched an inaugural bond issue linked to the takeover of the pharmaceutical business of its rival IFF. We subscribed to the hybrid tranche which offers an attractive issuance premium, with a coupon of 5.5% and a BB+ credit rating.

SPICE, for Society & Suppliers, People, Investors, Clients, Environment is our tool for assessing a company's performance on sustainability criteria. This tool incorporates the analysis of economic, governance, environmental, social, and societal risks and opportunities covering both the company's daily operations and its product and service offer.

The analysis process covers 90 criteria and leads to a rating per letter. These 5 ratings are weighted based on the company's most material impacts*.

	Fund	Index
SPICE	3.4/5	3.4/5
S score	3.4/5	3.1/5
P score	3.4/5	3.5/5
I score	3.4/5	3.5/5
C score	3.5/5	3.2/5
E score	3.3/5	3.2/5

Main issuers	Weight	Sector	SPICE rating	Sustainable theme
Veolia	2.8%	Utilities	3.9/5	Sustainable mgmt of resources
Renault	2.7%	Autos & Comp.	3.5/5	Energy transition
Tdf	2.3%	Telecommunications	3.4/5	Access and Inclusion
Autostrade Per L Italia	2.3%	Transportation	3.3/5	Access and Inclusion
Loxam	2.1%	Comm & pro services	3.8/5	SPICE Leadership

Environmental analysis

Net Environmental Contribution (NEC)**

Degree of alignment of economic activities with the ecological transition, integrating biodiversity, climate and resources, on a standard scale from -100% for total misalignment to +100% for complete alignment, where 0% corresponds to the world economy average. The results are calculated by Sycomore AM or by the nec-initiative.org based on data for the years 2022 to 2024 according to NEC 1.0 or 1.1.

Sustainable development goals exposure

This chart represents the main exposures to the United Nations Sustainable Development Goals and their 169 targets. Exposure is defined as the opportunity, for each company, to contribute positively to reaching SDGs, providing their products and services. This exercise doesn't aim to measure the companies effective contribution to SDGs, which is computed through our societal contribution (CS) and net environmental contribution (NEC) metrics. For each invested company, activities are analysed in order to identify those which are exposed to SDGs. For a same activity, its number of targets can vary between 0 and 2. The company target exposure to one of its activities is weighted by the revenue share gained from this activity. For more details, our annual SRI report is available in our ESG documentation.

No significant exposure : 26%

ESG follow-up, news and dialogue

Dialogue and engagement

Criteria Caixa

We asked for more information on Criteria Caixa's investment policy, notably its environmental policy, and on the monitoring of employee satisfaction. We would welcome more transparency on these items. We also asked how ESG issues were monitored by the group's governance bodies and recommended offering board members training on these topics.

ESG controversies

Schaeffler

Schaeffler intends to re-localise some of its production and therefore close two sites - involving the loss of 4,700 jobs, in response to difficulties within the industry.

Renault

During our talks with management, we addressed the difficulty, for car manufacturers, to attain the CAFE standards in 2025 (emissions criteria for CO2/km/vehicle sold) in light of weak sales within the EV segment. To avoid being fined, car manufacturers may have to lower the price of EVs and/or cut their production of combustion-engine cars, and/or purchase carbon credits from US or Chinese car industry players.

ERG

We had a reassuring discussion with ERG following the reveal of an Italian Authorities' investigation on several Italian companies for espionage. ERG confirmed it is not under investigation. Its name was in the press because they have worked with Equalize (under investigation) in 2023 to help conduct an internal investigation. Equalize had to sign all ERG's relevant documents such as their code of ethics and data privacy policy and ERG was not aware of their potential wrongdoings at the time.

Additional disclaimers: although the fund's performances are partly driven by the ESG indicators of portfolio holdings, these are not the sole determining factor. Marketing communication.
