Investment strategy

A responsible selection of people-driven EU companies

Sycamore Europe Happy@Work invests in EU companies that pay particular attention to the importance of human capital as a key performance driver. The fund seeks to contribute positively to the human capital issues highlighted in the United Nations' Sustainable Development Goals. Stocks are selected on the basis of rigorous fundamental analysis combined with in-depth ESG research, focusing on a company's ability to promote employee fulfillment and engagement, using a proprietary assessment framework. The analysis draws from the experience and knowledge of field experts, human capital managers and employees. Fund managers also carry out on-site visits. The fund seeks to outperform the Euro Stoxx TR index over 5 years.

Performance as of 31.03.2026

Past performances do not guarantee future performances. (Source Sycamore AM, Bloomberg)

	Mar 2026	2026 1 year	3 yrs	5 yrs	Inc. Annu.	2025	2024	2023	2022		
Fund %	-9.3	-3.3	5.3	29.1	25.1	85.2	5.9	13.8	11.3	13.9	-19.8
Index %	-8.4	-2.5	12.5	40.3	55.0	101.6	6.8	24.3	9.3	18.5	-12.3

Performance prior to 11/04/2015 was achieved by an identical French fund created on 07/06/2015, which was liquidated in favour of the Luxembourg sub-fund.

Fund commentary

After a strong start of the year, the month of March was characterized by a drawdown linked to the Iran's conflict and its implications on the inflation and growth outlook. The strong rise in oil price drove a rally in energy stocks, while economic or rate sensitive sectors such as basic resources, industrials, luxury and real estate delivered double digit negative returns. The fund's performance was mostly impacted by the absence of energy's investments, while on the other side it benefitted from a favorable stock picking, with notably Iberdrola, EDP and Caixabank (the latter two new convictions invested in 2025) favorably contributing to returns. We used the drawdown and the volatility to initiate new portfolio lines in companies that benefit of positive growth revisions (such as NVIDIA and TSMC) or of a strong company specific story (such as Knorr Bremse, Erste Bank and Telia).

SPICE*, for Society & Suppliers, People, Investors, Clients, Environment is our tool for assessing a company's performance on sustainability criteria. This tool incorporates the analysis of economic, governance, environmental, social, and societal risks and opportunities covering both the company's daily operations and its product and service offer.

The analysis process covers 90 criteria and leads to a rating per letter. These 5 ratings are weighted based on the company's most material impacts.

	Fund	Index
SPICE	3.7/5	3.6/5
S score	3.7/5	3.4/5
P score	3.9/5	3.7/5

Societal and social analysis

Training number of hours**

Average number of hours of training delivered per employee per year in companies.

Coverage rate : fund 97% / index 91%

Societal contribution

Contribution of the economic activity of companies to the resolution of major societal issues, on a scale from -100% to +100%.

Coverage rate : fund 100% / index 99%

Gender equality ♀/♂

Percentage of women in total company headcounts and executive committees.

Staff coverage rate : fund 100% / index 99%

ExecComm coverage rate : fund 100% / index 100%

Environmental analysis

Net Environmental Contribution (NEC)

Degree of alignment of economic activities with the ecological transition, integrating biodiversity, climate and resources, on a standard scale from -100% for total misalignment to +100% for complete alignment, where 0% corresponds to the world economy average. The results are calculated by Sycomore AM or by the nec-initiative.org based on data for the years 2022 to 2024 according to NEC 1.0 or 1.1.

Coverage rate : fund 100% / index 99%

Fossil fuel exposure

Share of revenues from activities linked to fossil fuels from upstream to energy production, supplied by MSCI.

Fund 1%

Legend: Coal (black), Oil (dark grey), Gas (light grey)

Carbon intensity of sales **

Weighted average of annual greenhouse gas emissions (GHG Protocol) from scopes 1, 2, 3 upstream and downstream as modelled by MSCI per annual sales in k€.

Coverage rate : fund 100% / index 100%

	Fund	Index
kg. eq. CO ₂ /k€	790	1117

Sustainable development goals exposure

This graph represents the main exposures to the United Nations Sustainable Development Goals. Exposure is defined as the opportunity, for each company, to contribute positively to reaching SDGs, providing their products and services. This exercise doesn't aim to measure the companies effective contribution to SDGs, which is computed through our societal contribution (CS) and net environmental contribution (NEC) metrics. A company may be exposed to several SDGs to varying degrees: strongly aligned, aligned, neutral, not aligned, or strongly not aligned. The methodology is based on data provided by MSCI. For more details, our annual SRI report is available in our ESG documentation.

No significant exposure : 51% *% of companies with no exposure (neutral)*
Non-alignment : 4% *% of companies misaligned or strongly misaligned*

ESG follow-up, news and dialogue

Dialogue and engagement

SAP

In light of recent news and pursuing our engagement on human capital with the company, we have discussed the new remuneration and performance system at SAP. We also noted positively that employees' engagement slightly increased in 2025 and that no major AI-related layoffs are underway. We expect to have more specific information on workforce training and productivity in the near future.

ESG controversies

No comment

Votes

5 / 5 voted general assemblies over the month. Details on our votes are available here the day following the company's AGM [Here](#).
