Investment strategy

A responsible selection of people-driven EU companies

Sycamore Europe Happy@Work invests in EU companies that pay particular attention to the importance of human capital as a key performance driver. The fund seeks to contribute positively to the human capital issues highlighted in the United Nations' Sustainable Development Goals. Stocks are selected on the basis of rigorous fundamental analysis combined with in-depth ESG research, focusing on a company's ability to promote employee fulfillment and engagement, using a proprietary assessment framework. The analysis draws from the experience and knowledge of field experts, human capital managers and employees. Fund managers also carry out on-site visits. The fund seeks to outperform the Euro Stoxx TR index over 5 years.

Fund commentary

The fund delivered a positive return in January, supported by a strong start for euro-zone equity markets which displayed a remarkable resilience in the context of rising geopolitical tensions and stronger domestic currency. This favored segments such as energy and domestic companies (banks and utilities), moreover, technology performed strongly on the back of the strength in global semiconductor names. On the contrary, consumer exposed companies lagged and insurers sunk on the back of deteriorating pricing. In this context, the fund's performance was supported by the strong returns of some of our higher conviction holdings, such as ASML, Prysmian, Siemens Energy and EDP on the electrification and AI themes. On the opposite side, Danone was the main detractor, affected by the increasing controversies in the infant milk sector. We decreased our position and engaged with the company on this topic, which seems to be correctly managed by the French group but which has a potential strong financial materiality.
