Investment strategy

Sycomore Sélection Responsable (Luxembourg) is a feeder fund for the Paris-based Sycomore Sélection Responsable master fund. The strategy aims to outperform the Euro Stoxx Total Return Index (dividends reinvested) over a recommended investment horizon of five years.

The fund invests in a selection of stocks that are principally issued by Eurozone companies. Stock picking is carried out based on fundamental analysis and in-depth ESG (Environment, Social, Governance) research designed to identify companies that are addressing the challenges of sustainable development.

Performance as of 29.08.2025

Fund commentary

In August, Eurozone equity markets rose to record highs, supported by robust H1 earnings publications and the Fed Chair's speech at Jackson Hole, which opened the door to a potential rate cut in the US as early as September. This favourable environment was nevertheless disrupted by the return of political risk in France after the Prime Minister called for a vote of confidence among members of Parliament. This latest development caused the relative performance of domestic players (which had risen sharply year-to-date) and exporting companies (overlooked due to uncertainties over US tariffs) to shift dramatically. In this environment, the fund's under-performance at the beginning of the month was largely offset by its under-exposure to financials (strengthened mid-August via profit taking on Munich Re and Société Générale) and over-exposure to industrials and luxury stocks (also accentuated after we strengthened Prysmian, Hermès, Richemont and LVMH).

SPICE, for Society & Suppliers, People, Investors, Clients, Environment is our tool for assessing a company's performance on sustainability criteria. This tool incorporates the analysis of economic, governance, environmental, social, and societal risks and opportunities covering both the company's daily operations and its product and service offer.

The analysis process covers 90 criteria and leads to a rating per letter. These 5 ratings are weighted based on the company's most material impacts*.

	Fund	Index
SPICE	3.7/5	3.5/5
S score	3.5/5	3.3/5
P score	3.7/5	3.7/5
I score	3.8/5	3.7/5

Environmental analysis

Net Environmental Contribution (NEC) **

Degree of alignment of economic activities with the ecological transition, integrating biodiversity, climate and resources, on a standard scale from -100% for total misalignment to +100% for complete alignment, where 0% corresponds to the world economy average. The results are calculated by Sycomore AM or by the [\(nec-initiative.org\)](#) based on data for the years 2022 to 2024 according to NEC 1.0 or 1.1.

Coverage rate : fund 100% / index 98%

European taxonomy

Share of EU taxonomy-aligned company revenues provided by MSCI.

Coverage rate : fund 100% / index 99%

Carbon intensity of sales **

Weighted average of annual greenhouse gas emissions (GHG Protocol) from scopes 1, 2, 3 upstream and downstream as modelled by MSCI per annual sales in k€.

Coverage rate : fund 97% / index 96%

	Fund	Index
kg. eq. CO ₂ /k€	636	950

Climate alignment - SBTi

Share of companies that have validated their greenhouse gas reduction targets with the Science-Based Targets initiative.

Fossil fuel exposure

Share of revenues from activities linked to fossil fuels from upstream to energy production, supplied by S&P Global.

Societal and social analysis

Societal contribution

Contribution of the economic activity of companies to the resolution of major societal issues, on a scale from -100% to +100%.

Coverage rate : fund 100% / index 99%

Human rights policy

Percentage of portfolio companies that have drawn up a Human Rights policy.

Coverage rate : fund 100% / index 98%

Gender equality ♀/ ♂

Percentage of women in total company headcounts and executive committees.

Staff cov. rate: fund 100% / index 99%

ExecComm cov. rate: fund 99% / index 100%

Methodologies differ between issuers and between extra-financial data providers.*ESG-SPICE correspondence: E=E, S=(P+S+C)/3, G is a sub-part of I, which represents 40%.**The fund has committed to outperforming the benchmark on these two indicators. The other indicators are shown for illustrative purposes. All indicators mentioned are calculated on the invested portion of the fund (excluding cash, derivatives, and UCITS).

sycomore sélection responsable (luxembourg)

Sustainable development goals exposure

This chart represents the main exposures to the United Nations Sustainable Development Goals and their 169 targets. Exposure is defined as the opportunity, for each company, to contribute positively to reaching SDGs, providing their products and services. This exercise doesn't aim to measure the companies effective contribution to SDGs, which is computed through our societal contribution (CS) and net environmental contribution (NEC) metrics. For each invested company, activities are analysed in order to identify those which are exposed to SDGs. For a same activity, its number of targets can vary between 0 and 2. The company target exposure to one of its activities is weighted by the revenue share gained from this activity. For more details, our annual SRI report is available in our ESG documentation.

No significant exposure : 19%

ESG follow-up, news and dialogue

Dialogue and engagement

Siemens Healthineers

We have reached out the company after a letter sent to the ANSM (Agence Nationale de Sécurité du Médicament) regarding potential safety issue associated with the helium exhaust lines of 3 Tesla MRI system magnet. We will soon meet management and will ask them further information on this topic.

Novo Nordisk

Novo has recently received an FDA Form 483 at the Bloomington, Indiana, facility after a FDA agency inspection of the site in late June and July regarding contamination from cat hair, bacteria, and foreign particles. In an emailed statement, a Novo Nordisk spokesperson confirmed receipt of the Form 483 and wrote that the company considers adherence to good manufacturing practice guidelines a "top priority."
