Investment strategy

Sycomore Sélection Responsable (Luxembourg) is a feeder fund for the Paris-based Sycomore Sélection Responsable master fund. The strategy aims to outperform the Euro Stoxx Total Return Index (dividends reinvested) over a recommended investment horizon of five years.

The fund invests in a selection of stocks that are principally issued by Eurozone companies. Stock picking is carried out based on fundamental analysis and in-depth ESG (Environment, Social, Governance) research designed to identify companies that are addressing the challenges of sustainable development.

Fund commentary

Eurozone equity markets continued to rise in February, supported in the first half of the month by talks aimed at reaching a ceasefire in Ukraine and by robust annual earnings publications. The "Value" segment of the market (banks, construction, telecoms) was very popular with investors and made a substantial positive contribution to the fund's performance. As a result, Société Générale, Santander, E.ON, Infineon and Saint-Gobain ranked among the fund's leading contributors. Conversely, investors reacted negatively to the few companies that missed earnings expectations and issued disappointing guidance for 2025, such as Cargill and Prysmian. In terms of portfolio movements, we took advantage of the dip on Schneider Electric (stemming from fears over Microsoft's lower data center spending) to re-introduce the position, while also taking some profits on Allianz, Essilor Luxottica and Renault.

SPICE, for Society & Suppliers, People, Investors, Clients, Environment is our tool for assessing a company's performance on sustainability criteria. This tool incorporates the analysis of economic, governance, environmental, social, and societal risks and opportunities covering both the company's daily operations and its product and service offer.

The analysis process covers 90 criteria and leads to a rating per letter. These 5 ratings are weighted based on the company's most material impacts*.

	Fund	Index
SPICE	3.6/5	3.5/5
S score	3.5/5	3.3/5
P score	3.7/5	3.7/5

Environmental analysis

Net Environmental Contribution (NEC) **

Degree of alignment of economic activities with the ecological transition, integrating biodiversity, climate and resources, on a standard scale from -100% for total misalignment to +100% for complete alignment, where 0% corresponds to the world economy average. The results are calculated by Sycomore AM or by the nec-initiative.org based on data for the years 2022 to 2024 according to NEC 1.0 or 1.1.
Coverage rate : fund 100% / index 98%

European taxonomy

Share of EU taxonomy-aligned company revenues provided by MSCI.

Coverage rate : fund 100% / index 99%

Temperature rise - SB2A

Induced average temperature increase by 2100 compared to pre-industrial times, according to the Science-Based 2°C Alignment methodology.

Coverage rate : fund 100%

*IPCC Sixth Assessment Report «Climate Change 2022: Mitigation of Climate Change». <https://www.ipcc.ch/assessment-report/ar6/>

Climate alignment - SBTi

Share of companies that have validated their greenhouse gas reduction targets with the Science-Based Targets initiative.

Fossil fuel exposure

Share of revenues from activities linked to fossil fuels from upstream to energy production, supplied by S&P Global.

Carbon intensity**

Annual greenhouse gas emissions (GHG Protocol) from upstream scopes 1, 2 and 3 per thousand euros invested, as modelled by MSCI. Intensity allocated pro rata to sales.

Coverage rate : fund 100% / index 99%

kg. eq. CO ₂ /year/k€	Fund	Index
	674	1010

Biodiversity footprint

Artificialised surface area in m² MSA per k€ invested***, measured by the Corporate Biodiversity Footprint. Mean Species Abundance (MSA) is assessed in comparison with the original state of the environment.

Coverage rate : fund 84% / index 89%

m ² .MSA/k€	Fund	Index
	-24	-49

Societal and social analysis

Societal contribution

Contribution of the economic activity of companies to the resolution of major societal issues, on a scale from -100% to +100%.

Coverage rate : fund 100% / index 98%

Human rights policy

Percentage of portfolio companies that have drawn up a Human Rights policy.

Coverage rate : fund 100% / index 97%

Gender equality ♀/σ

Percentage of women in total company headcounts and executive committees.

Staff cov. rate : fund 97% / index 91%

ExecComm cov. rate : fund 99% / index 96%

Methodologies differ between issuers and between extra-financial data providers.*ESG-SPICE correspondence: E=E, S=(P+S+C)/3, G is a sub-part of I, which represents 40%.**The fund has committed to outperforming the benchmark on these two indicators. The other indicators are shown for illustrative purposes.***Footprint allocated pro rata to enterprise value, cash included.

Sustainable development goals exposure

This chart represents the main exposures to the United Nations Sustainable Development Goals and their 169 targets. Exposure is defined as the opportunity, for each company, to contribute positively to reaching SDGs, providing their products and services. This exercise doesn't aim to measure the companies effective contribution to SDGs, which is computed through our societal contribution (CS) and net environmental contribution (NEC) metrics. For each invested company, activities are analysed in order to identify those which are exposed to SDGs. For a same activity, its number of targets can vary between 0 and 2. The company target exposure to one of its activities is weighted by the revenue share gained from this activity. For more details, our annual SRI report is available in our ESG documentation.

No significant exposure : 17%
