Investment strategy

A responsible and opportunistic selection of European bonds based on proprietary ESG analysis

Sycomore Sélection Crédit (Luxembourg) is a feeder of Sycomore Sélection Crédit. Sycomore Sélection Crédit aims to deliver financial returns above those of the Barclays Capital Euro Corporate ex-Financial Bonds (reinvested coupons) over a minimum investment horizon of five years, within a modified duration range of 0 to +5, by applying a socially responsible investment process. The fund also aims to outperform its benchmark on the Net Environmental Contribution (NEC) indicator and on the 3-year headcount variation indicator, to select durable companies, particularly on environmental and/or contribution to employment criteria.

Fund commentary

Economic activity data was resilient in March, while inflation readings in the US paused in their retreat. In Europe, the ECB has revised its inflation forecasts downward for the Eurozone in 2024. In this environment, yields in the Eurozone dropped by 15 to 20 bp over 5 and 10-years. The primary market was busy in March and offered many investment opportunities. We took part in the issuances by Forvia 2029 and 2031, Fnac 2029, Neopharmed 2029, Nexans 2030, and in the hybrid bonds issued by Orange and Arkema. We considered the terms to be attractive as they offered a premium over the yields on the current bonds. While several issuers came under pressure, including Altice, Atos and Grifols (which are not held in the fund), the remainder of the market remained constructive, with a slight drop in credit spreads.

SPICE, for Society & Suppliers, People, Investors, Clients, Environment is our tool for assessing a company's performance on sustainability criteria. This tool incorporates the analysis of economic, governance, environmental, social, and societal risks and opportunities covering both the company's daily operations and its product and service offer.

The analysis process covers 90 criteria and leads to a rating per letter. These 5 ratings are weighted based on the company's most material impacts*.

	Fund	Index
SPICE	3.4/5	3.3/5
S score	3.3/5	3.1/5
P score	3.3/5	3.3/5
I score	3.4/5	3.5/5
C score	3.5/5	3.3/5
E score	3.3/5	3.2/5

Main issuers	Weight	Sector	SPICE rating	Sustainable theme
Renault	4.0%	Autos & Comp.	3.4/5	SPICE transformation
Orange	2.6%	Telecommunications	3.2/5	Digital and communication

Environmental analysis

Net Environmental Contribution (NEC)**

Degree of alignment of the economic models with the ecological transition, integrating biodiversity and climate, on a scale running from -100% for eco-obstruction to +100% for eco-solution, where 0% equates to the average environmental impact of the global economy. The results are expressed in NEC 1.0 (nec-initiative.org) calculated by Sycomore AM based from 2018 to 2021.

Sustainable development goals exposure

This chart represents the main exposures to the United Nations Sustainable Development Goals and their 169 targets. Exposure is defined as the opportunity, for each company, to contribute positively to reaching SDGs, providing their products and services. This exercise doesn't aim to measure the companies effective contribution to SDGs, which is computed through our societal contribution (CS) and net environmental contribution (NEC) metrics. For each invested company, activities are analysed in order to identify those which are exposed to SDGs. For a same activity, its number of targets can vary between 0 and 2. The company target exposure to one of its activities is weighted by the revenue share gained from this activity. For more details, our annual SRI report is available in our ESG documentation.

No significant exposure : 27%

ESG follow-up, news and dialogue

Dialogue and engagement

Nexans

We met the Board of Directors ahead of the AGM and made several recommendations. These include: to submit a Say on Climate to the shareholders' vote; to expand on how the 30% recycled copper target for 2030 will be achieved; to set a new gender diversity target above the 25% goal already achieved and ensure that gender diversity applies to all levels within the company hierarchy. Nexans is working on these points for its next ESG roadmap.

ESG controversies

Biogroup / Cerba / Synlab

Mid-March, the French antitrust authorities raided companies suspected of anti-competitive business practices within the medical biology industry. The authority has provided no details on the number of companies concerned, their identity, or the practices involved.

Additional disclaimers: although the fund's performances are partly driven by the ESG indicators of portfolio holdings, these are not the sole determining factor. Marketing communication.
