Investment strategy

A responsible and opportunistic selection of European bonds based on proprietary ESG analysis

Sycomore Sélection Crédit (Luxembourg) is a feeder of Sycomore Sélection Crédit. Sycomore Sélection Crédit aims to deliver financial returns above those of the Barclays Capital Euro Corporate ex-Financial Bonds (reinvested coupons) over a minimum investment horizon of five years, within a modified duration range of 0 to +5, by applying a socially responsible investment process. The fund also aims to outperform its benchmark on the Net Environmental Contribution (NEC) indicator and on the 3-year headcount variation indicator, to select durable companies, particularly on environmental and/or contribution to employment criteria.

Performance as of 28.02.2025

Fund commentary

US 10-year bond yields have been retreating since mid-January. Fears of inflationary pressure caused by Trump's political agenda, confirmed by the poor inflation figures in the US, are gradually turning into concerns over economic growth, as suggested by declining consumer confidence and the rise of the Euro. Long-term rates fell by around 10 bp in Europe. France's risk premium also dipped slightly. Spreads narrowed across the full credit spectrum: the BBB and BB-rated segments contracted around 10 and 15 bp respectively. Some bonds offered an attractive issuance premium. Loxam, Europe's leading equipment rental company, refinanced some of its secured notes due in 2026 with a new 5-year bond bearing a coupon of 4.25%. We also subscribed to the Tier 2 issuance by CCF Holdings, created following the merger of the former CCF and MyMoneyBank, both owned by the Cerberus fund. This BB+-rated bond, maturing in 10 years and callable in 5, bears a coupon of 5.15%.

SPICE, for Society & Suppliers, People, Investors, Clients, Environment is our tool for assessing a company's performance on sustainability criteria. This tool incorporates the analysis of economic, governance, environmental, social, and societal risks and opportunities covering both the company's daily operations and its product and service offer.

The analysis process covers 90 criteria and leads to a rating per letter. These 5 ratings are weighted based on the company's most material impacts*.

	Fund	Index
SPICE	3.3/5	3.4/5

Environmental analysis

Net Environmental Contribution (NEC)**

Degree of alignment of economic activities with the ecological transition, integrating biodiversity, climate and resources, on a standard scale from -100% for total misalignment to +100% for complete alignment, where 0% corresponds to the world economy average. The results are calculated by Sycomore AM or by the nec-initiative.org based on data for the years 2022 to 2024 according to NEC 1.0 or 1.1.

Coverage rate : fund 91% / index 82%

Carbon intensity**

Annual greenhouse gas emissions (GHG Protocol) from upstream scopes 1, 2 and 3 per thousand euros invested, as modelled by MSCI. Intensity allocated pro rata to sales.

Sustainable development goals exposure

This chart represents the main exposures to the United Nations Sustainable Development Goals and their 169 targets. Exposure is defined as the opportunity, for each company, to contribute positively to reaching SDGs, providing their products and services. This exercise doesn't aim to measure the companies effective contribution to SDGs, which is computed through our societal contribution (CS) and net environmental contribution (NEC) metrics. For each invested company, activities are analysed in order to identify those which are exposed to SDGs. For a same activity, its number of targets can vary between 0 and 2. The company target exposure to one of its activities is weighted by the revenue share gained from this activity. For more details, our annual SRI report is available in our ESG documentation.

No significant exposure : 28%

ESG follow-up, news and dialogue

Dialogue and engagement

Nexity

With Nexity, we discussed the resolutions on the agenda of the next shareholders' meeting as well as the roll-out of the company's transformation plan. Nexity intends to improve transparency on corporate officer remuneration, though without disclosing sensitive information to its competitors. Nexity reassured us on the successful deployment of its transformation plan on the social front, pointing out the constructive talks held with the trade unions.

ESG controversies

Iberdrola

The United Kingdom's Competition and Markets Authority has launched a probe into potential antitrust issues following the £2.1bn deal for the acquisition of North West Electricity Networks by Iberdrola.

Veolia

A former employee has reported undeclared malfunctions, including the release of ferric chloride into the Durance river. This acid substance can cause the destruction of aquatic plants and animals.

Additional disclaimers: although the fund's performances are partly driven by the ESG indicators of portfolio holdings, these are not the sole determining factor. Marketing communication.
