#### Investment strategy

#### A responsible selection of international companies that meet today's social challenges

Sycomore Social Impact is a feeder fund for Sycomore Global Social Impact (master fund). The fund invests in companies that have a positive impact on social issues, such as those highlighted by the United Nations' Sustainable Development Goals. We are convinced that companies that respond to current social challenges are the most likely to generate sustainable operational and financial performance. Stock selection is based on a rigorous fundamental analysis that integrates sustainable development issues with a predominantly social dimension. This analysis is based on our SPICE model and our proprietary metrics associated with the different stakeholders that make up society (Consumers, Employees and Communities): the Social Contribution, the Happy@Work rating and the Good Jobs Rating. The investment universe is global, with no capitalisation size constraints.

#### Performance as of 30.04.2025

|         | Apr  | 2025 | 1 year | 3 yrs | 5 yrs | Inc.* | Annu. | 2024 | 2023 | 2022  | 2021 |

#### **Fund commentary**

April 2025 has been a turbulent month for global stock markets, characterized by significant volatility and uncertainty. The primary driver has been the escalation of the trade war between the U.S. and China, with both countries imposing unprecedented tariffs on each other's goods. In this challenging environment, our conservative positioning and diversification strategy helped us outperform the relevant benchmark. Throughout the month, our stock-picking proved effective, with the strategy outperforming in most sectors. For instance, in consumer staples, both Sprout Market and L'Oréal delivered strong performances. In the technology sector, ServiceNow reacted positively to a robust set of numbers. Conversely, in telecommunications, T-Mobile, despite a very good performance year-to-date, reacted negatively to a positive quarter where new subscriber numbers slightly missed market expectations.

SPICE, for Society & Suppliers, People, Investors, Clients, Environment is our tool for assessing a company's performance on sustainability criteria. This tool incorporates the analysis of economic, governance, environmental, social, and societal risks and opportunities covering both the company's daily operations and its product and service offer.

The analysis process covers 90 criteria and leads to a rating per letter. These 5 ratings are weighted based on the company's most material impacts\*.

|         | Fund  | Index |

#### **Intuitive Surgical**

Ahead of the Annual General Meeting, we contacted the company to obtain more information regarding the targets incorporated into the CEO's short- and long-term remuneration policy. We also indicated that, as a responsible investor, we would like to see ESG criteria integrated into the CEO's short- and long-term remuneration plan.

## Votes

**0 / 0** voted general assembly over the month.

Details on our votes are available here the day following the company's  ${\sf AGM}$   ${\sf Here}.$ 

#### Axa

Axa was informed of our satisfaction that within the CEO compensation plan, the Gobal Corporate Sustainability Assessment-related criterion has been replaced with an in-house criterion focusing on the reduction of the group's carbon intensity for total assets. This meets our recommendation to incorporate pertinent, clearly identified, quantifiable sustainability criteria that can be tracked over time and are directly related with the strategy.

Additional disclaimers: although the fund's performances are partly driven by the ESG indicators of portfolio holdings, these are not the sole determing factor. Marketing communication.
