Investment strategy

Sycomore Next Generation is a flexible, multi-asset SRI fund that combines Sycomore's proven expertise in responsible stock and bond picking and international asset allocation, to achieve performance and diversification. The fund's investment process draws from a thorough fundamental analysis, combined with the ESG analysis of companies and countries, with an additional macroeconomic overlay. Managed actively, the fund's exposure to equities (0-50%) and fixed income (0-100%) - including corporate and sovereign debt - is designed to enhance its risk-return profile, to achieve steady capital growth. Employing a multi-themed SRI approach, the fund seeks to invest in companies addressing social, environmental, and technological challenges as highlighted by the United Nations' Sustainable Development Goals, for the generations to come.

Fund commentary

Despite a longer government shutdown than usual in the US - which deprived the country from statistics, equity markets rose in October, driven by strong 3rd quarter earnings. Confirmation of rate cuts by the Fed and a welcome easing across bond markets also supported equity markets, as did the prospect of a deal between the United States and China. Credit markets were more volatile after the collapse of First Brands in the United States and references to the risks currently weighing on private debt assets. The technology sector continued to outperform within the portfolio. Robust earnings reported by LVMH and Sanofi allowed the stocks to rebound. Similarly, Stellantis reassured investors on its ability to recover from its weakened situation. We increased the fund's exposure to equities, notably in Japan and Asia.

SPICE*, for Society & Suppliers, People, Investors, Clients, Environment is our tool for assessing a company's performance on sustainability criteria. This tool incorporates the analysis of economic, governance, environmental, social, and societal risks and opportunities covering both the company's daily operations and its product and service offer.

The analysis process covers 90 criteria and leads to a rating per letter. These 5 ratings are weighted based on the company's most material impacts.

| | Fund | Index |
|---------|-------|-------|
| SPICE | 3.4/5 | 3.5/5 |
| S score | 3.3/5 | 3.3/5 |

Sustainable development goals exposure

This chart represents the main exposures to the United Nations Sustainable Development Goals and their 169 targets. Exposure is defined as the opportunity, for each company, to contribute positively to reaching SDGs, providing their products and services. This exercise doesn't aim to measure the companies effective contribution to SDGs, which is computed through our societal contribution (CS) and net environnemental contribution (NEC) metrics. For each invested company, activities are analysed in order to identify those which are exposed to SDGs. For a same activity, its number of targets can vary between 0 and 2. The company target exposure to one of its activities is weighted by the revenue share gained from this activity. For more details, our annual SRI report is available in our ESG documentation.

No significant exposure: 28%

ESG follow-up, news and dialogue

Dialogue and engagement

We visited Véolia's Val'Pôle Plessis-Gassot facility. We discussed the following issues: PFAS, CAPEX and the coal transition, local communities, stakeholder consultation and the fair transition, AI, reporting, and methane capture.

ESG controversies

Orange

An explosion occurred at one of Orange's technical sites, injuring three workers, two critically, and disrupting communication services for 80,000 users.

Votes

voted general assembly over the month.

Details on our votes are available here the day following the company's AGM Here.

LVMH reasserted its pledge to support gender diversity despite political pressure in the United States. Women now account for 50% of the group's "key positions" - and we recommend more transparency on the definition of "key positions". LVMH is working on achieving 30% female board representation by 2026, in compliance with French law. We are lacking information on post-2026 targets and are disappointed that the gender pay gap has not been disclosed.

Stellantis

Stellantis a rappelé près de 120 000 jeeps aux Etats-Unis

Additional disclaimers: although the fund's performances are partly driven by the ESG indicators of portfolio holdings, these are not the sole determing factor. Marketing communication.
