Investment strategy

Sycamore Next Generation is a flexible, multi-asset SRI fund that combines Sycamore's proven expertise in responsible stock and bond picking and international asset allocation, to achieve performance and diversification. The fund's investment process draws from a thorough fundamental analysis, combined with the ESG analysis of companies and countries, with an additional macroeconomic overlay. Managed actively, the fund's exposure to equities (0-50%) and fixed income (0-100%) - including corporate and sovereign debt - is designed to enhance its risk-return profile, to achieve steady capital growth. Employing a multi-themed SRI approach, the fund seeks to invest in companies addressing social, environmental, and technological challenges as highlighted by the United Nations' Sustainable Development Goals, for the generations to come.

Fund commentary

The US and Iran have continued their talks aimed at reaching an agreement, causing fuel prices and interest rates to ease. Equity markets resumed an upward trend, lifted by robust corporate earnings both in Europe and in the United States. The semiconductor segment made an outstanding contribution to the market rally. High demand from hyperscaler capex and rising prices acted as major catalysts. Within the portfolio, Richemont rose after beating earnings estimates; however, ASML, Infineon and Renesas delivered the strongest contributions to performance. The bond portfolio also made a substantial positive contribution thanks to the carry yield and easing rates.

SPICE*, for Society & Suppliers, People, Investors, Clients, Environment is our tool for assessing a company's performance on sustainability criteria. This tool incorporates the analysis of economic, governance, environmental, social, and societal risks and opportunities covering both the company's daily operations and its product and service offer.

The analysis process covers 90 criteria and leads to a rating per letter. These 5 ratings are weighted based on the company's most material impacts.

	Fund	Index
SPICE	3.5/5	3.6/5
S score	3.3/5	3.4/5
P score	3.5/5	3.7/5

ESG scores

	Fund
ESG*	3.3/5
Environment	3.4/5
Social	3.3/5
Governance	3.3/5

Environmental analysis

Net Environmental Contribution (NEC)**

Degree of alignment of economic activities with the ecological transition, integrating biodiversity, climate and resources, on a standard scale from -100% for total misalignment to +100% for complete alignment, where 0% corresponds to the world economy average. The results are calculated by Sycomore AM or by the nec-initiative.org based on data for the years 2022 to 2024 according to NEC 1.0 or 1.1.

Coverage rate : fund 95% / index 99%

European taxonomy

Share of EU taxonomy-aligned company revenues provided by MSCI.

Coverage rate : fund 75%

Climate alignment - SBTi

Share of companies that have validated their greenhouse gas reduction targets with the Science-Based Targets initiative.

Fossil fuel exposure

Share of revenues from activities linked to fossil fuels from upstream to energy production, supplied by MSCI.

Carbon intensity of sales **

Weighted average of annual greenhouse gas emissions (GHG Protocol) from scopes 1, 2, 3 upstream and downstream as modelled by MSCI per annual sales in k€.

Coverage rate : fund 72%

	Fund	Index
kg. eq. CO ₂ /k€	742	1099

Societal and social analysis

Societal contribution

Contribution of the economic activity of companies to the resolution of major societal issues, on a scale from -100% to +100%.

Coverage rate : fund 96% / index 99%

Sources: portfolio companies, Sycomore AM, Bloomberg, Science Based Target, Moody's and MSCI. Methodologies differ between issuers and between extra-financial data providers.*ESG-SPICE correspondence: E=E, S=(P+S+C)/3, G is a sub-part of I, which represents 40%.** **The fund has committed to outperforming the Euro Stoxx on these two indicators. The other indicators are shown for illustrative purposes.** All indicators mentioned are calculated on the invested portfolio (excluding cash, derivatives, and mutual funds).

Sustainable development goals exposure

No significant exposure : 59% % of companies with no exposure (neutral)
Non-alignment : 5% % of companies misaligned or strongly misaligned

ESG follow-up, news and dialogue

Dialogue and engagement

Bureau Veritas

We discussed climate change adaptation, scope 3 reduction and AI usages – still under-monetized – with the company. New data service and digital confidence services are under consideration. The CEO's 30% pay rise seems justified and reasonably explained by the board. A controversy relating to government services has highlighted progress made on the governance front while also raising execution and residual exposure risks.

ESG controversies

Vodafone

Vodafone is accused by former franchisees of imposing excessive fines and cutting commissions.

Thalès

As part of a collaborative engagement, we questioned Thales about its diligence in terms of human rights in exports. Despite the existence of a framework, information remains general and not very operational, with few concrete indicators. Investors are calling for greater transparency, particularly in terms of criteria, governance and practical examples. A new phase of engagement aims to align Thales with the best practices observed among its peers.

Alphabet

Several Waymo autonomous vehicles came to a standstill on busy roads in Austin after being unable to cross puddles, disrupting traffic. The incident is part of a wider context of accidents involving autonomous vehicles in the USA (5,000 accidents recorded by the NHTSA).

Votes

14 / 16 voted general assemblies over the month.

Details on our votes are available here the day following the company's AGM [Here](#).

Additional disclaimers: although the fund's performances are partly driven by the ESG indicators of portfolio holdings, these are not the sole determining factor. Marketing communication.
