Investment strategy

Sycamore Next Generation is a flexible, multi-asset SRI fund that combines Sycamore's proven expertise in responsible stock and bond picking and international asset allocation, to achieve performance and diversification. The fund's investment process draws from a thorough fundamental analysis, combined with the ESG analysis of companies and countries, with an additional macroeconomic overlay. Managed actively, the fund's exposure to equities (0-50%) and fixed income (0-100%) - including corporate and sovereign debt - is designed to enhance its risk-return profile, to achieve steady capital growth. Employing a multi-themed SRI approach, the fund seeks to invest in companies addressing social, environmental, and technological challenges as highlighted by the United Nations' Sustainable Development Goals, for the generations to come.

Performance as of 29.11.2024

Fund commentary

Eurozone sovereign yields retreated on growing expectations of ECB rate cuts in 2025, while long-term yields in the US reverted to their end-October level of 4.25%, after peaking at 4.5% during November. After rising stress over the political situation in France, the risk premium on French rates eased in the second half of the month. Credit spreads widened slightly on the BBB segment but narrowed in HY. The cable company Prysmian issued a 7-year bond with a BBB- rating bearing a coupon close to 4%, the proceeds of which will fund a takeover in the US. We took part in this issuance. Within the equity envelope, Europe underperformed the US where markets were boosted by the positive momentum that followed the election of Donald Trump. We have gradually increased the US equity envelope over the past few weeks, at the expense of European equities. Leading contributors to performance in the US were JP Morgan, T Mobile and Mastercard and in Europe, Deutsche Telekom and Publicis. In contrast, European financials weighed on the fund's performance during the month.

SPICE, for Society & Suppliers, People, Investors, Clients, Environment is our tool for assessing a company's performance on sustainability criteria. This tool incorporates the analysis of economic, governance, environmental, social, and societal risks and opportunities covering both the company's daily operations and its product and service offer.

The analysis process covers 90 criteria and leads to a rating per letter. These 5 ratings are weighted based on the company's most material impacts*.

	Fund	Index
SPICE	3.4/5	3.5/5
S score	3.3/5	3.3/5

ESG scores

	Fund
ESG*	3.3/5
Environment	3.3/5
Social	3.3/5
Governance	3.3/5

Environmental analysis

Net Environmental Contribution (NEC)**

Degree of alignment of economic activities with the ecological transition, integrating biodiversity, climate and resources, on a standard scale from -100% for total misalignment to +100% for complete alignment, where 0% corresponds to the world economy average. The results are calculated by Sycomore AM or by the nec-initiative.org based on data for the years 2022 to 2024 according to NEC 1.0 or 1.1.

Coverage rate : fund 93% / index 98%

European taxonomy

Share of EU taxonomy-eligible company revenues provided by MSCI.

Coverage rate : fund 65%

Climate alignment - SBTi

Share of companies that have validated their greenhouse gas reduction targets with the Science-Based Targets initiative.

Fossil fuel exposure

Share of revenues from activities linked to fossil fuels from upstream to energy production, supplied by S&P Global.

Carbon footprint

Annual greenhouse gas emissions (GHG Protocol) from upstream scopes 1, 2 and 3 per thousand euros invested, as modelled by MSCI.***.

Coverage rate : fund 56%

Societal and social analysis

Societal contribution**

Contribution of the economic activity of companies to the resolution of major societal issues, on a scale from -100% to +100%.

Coverage rate : fund 97% / index 98%

Sources: portfolio companies, Sycomore AM, Bloomberg, Science Based Targets, Iceberg Data Lab, MSCI, Moody's, MSCI and S&P Global. Methodologies differ between issuers and between extra-financial data providers.*ESG-SPICE correspondence: E=E, S=(P+S+C)/3, G is a sub-part of I, which represents 40%. **The fund has committed to outperforming the Euro Stoxx on these two indicators. The other indicators are shown for illustrative purposes.***Footprint allocated prorata to enterprise value, cash included.

Sustainable development goals exposure

This chart represents the main exposures to the United Nations Sustainable Development Goals and their 169 targets. Exposure is defined as the opportunity, for each company, to contribute positively to reaching SDGs, providing their products and services. This exercise doesn't aim to measure the companies effective contribution to SDGs, which is computed through our societal contribution (CS) and net environmental contribution (NEC) metrics. For each invested company, activities are analysed in order to identify those which are exposed to SDGs. For a same activity, its number of targets can vary between 0 and 2. The company target exposure to one of its activities is weighted by the revenue share gained from this activity. For more details, our annual SRI report is available in our ESG documentation.

No significant exposure : 24%
