Investment strategy

A selection of global responsible technology players

Sycamore Sustainable Tech invests in technology companies listed on international markets and employs an innovative SRI process. Stocks are selected with no regional or market capitalisation constraints. The ESG approach focuses on three dimensions: 1- "Tech for Good": for goods and services with positive social or environmental impacts; 2- "Good in Tech": for a responsible use of goods and services that will reduce negative externalities impacting individuals or the environment; 3-"Improvement Enablers": companies engaged in making progress in the two previous dimensions.

Performance as of 31.03.2026

Fund commentary

Technology ended up performing roughly in-line with global markets in March. The sector was resilient in the first half of the month, but as investors started capitulating due to the Iran war, technology corrected ~6% in the second half. The memory sector was particularly volatile and ended the month down more than double digit (vs. semis - 5%). It is still worth noting that the space is still +55% YTD driven by the global memory shortage. For the fund, we underperformed the benchmark but used the recent volatility to reinforce some of our core convictions in the data center value chain, particularly in Asia. We are particularly upbeat on our core AI thesis (global AI data center capacity shortage becoming more evident) and that given the recent pull back any resolution to the Iran-related risk will serve as a catalyst for the thematic.

SPICE*, for Society & Suppliers, People, Investors, Clients, Environment is our tool for assessing a company's performance on sustainability criteria. This tool incorporates the analysis of economic, governance, environmental, social, and societal risks and opportunities covering both the company's daily operations and its product and service offer.

The analysis process covers 90 criteria and leads to a rating per letter. These 5 ratings are weighted based on the company's most material impacts.

	Fund	Index
SPICE	3.5/5	3.4/5
S score	3.3/5	3.0/5
P score	3.5/5	3.3/5
I score	3.8/5	3.7/5

Environmental analysis

Net Environmental Contribution (NEC)

Degree of alignment of economic activities with the ecological transition, integrating biodiversity, climate and resources, on a standard scale from -100% for total misalignment to +100% for complete alignment, where 0% corresponds to the world economy average. The results are calculated by Sycomore AM or by the nec-initiative.org based on data for the years 2022 to 2024 according to NEC 1.0 or 1.1.

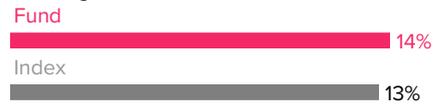

Coverage rate : fund 95% / index 91%

European taxonomy

Share of EU taxonomy-aligned company revenues provided by MSCI.

Coverage rate : fund 100% / index 99%

Carbon intensity of sales

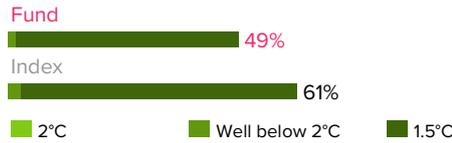

Weighted average of annual greenhouse gas emissions (GHG Protocol) from scopes 1, 2, 3 upstream and downstream as modelled by MSCI per annual sales in k€.

Coverage rate : fund 97% / index 98%

	Fund	Index
kg. eq. CO ₂ /k€	420	324

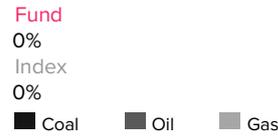

Climate alignment - SBTi

Share of companies that have validated their greenhouse gas reduction targets with the Science-Based Targets initiative.

Fossil fuel exposure

Share of revenues from activities linked to fossil fuels from upstream to energy production, supplied by MSCI.

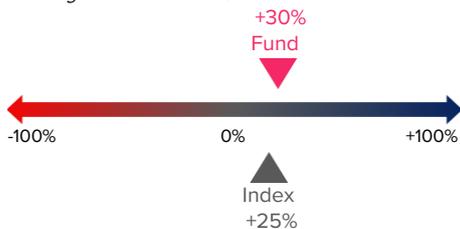

Societal and social analysis

Societal contribution

Contribution of the economic activity of companies to the resolution of major societal issues, on a scale of -100% to +100%, calculated by Sycomore AM and based on information from the years 2021 to 2024.

Coverage rate : fund 100% / index 93%

CEO Pay Ratio**

Average ratio within investee companies of the annual total compensation for the highest compensated individual to the median annual total compensation for all employees.

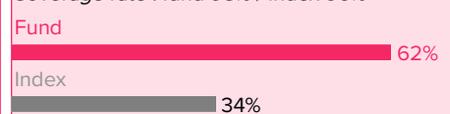

Coverage rate : fund 89% / index 95%

Staff growth**

Cumulated growth in company headcounts over the past three financial years (data unadjusted in the event of acquisitions, excluding transformational deals).

Coverage rate : fund 98% / index 96%

Human rights policy

Percentage of portfolio companies that have drawn up a Human Rights policy.

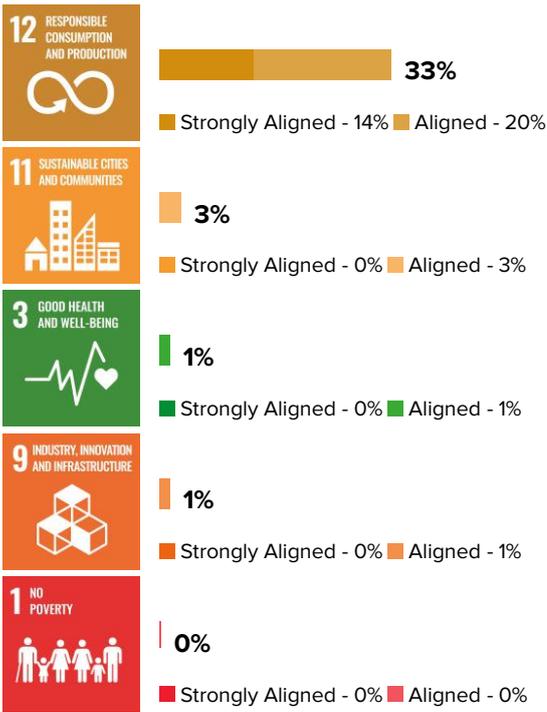

Coverage rate : fund 93% / index 76%

Sources: portfolio companies, Sycomore AM, Bloomberg, Science Based Target, Moody's and MSCI. Methodologies differ between issuers and between extra-financial data providers.*ESG-SPICE correspondence: E=E, S=(P+S+C)/3, G is a sub-part of I, which represents 40%.** The fund has committed to outperforming the benchmark on these two indicators. The other indicators are shown for illustrative purposes. All indicators mentioned are calculated on the invested portfolio (excluding cash, derivatives, and mutual funds).

Sustainable development goals exposure

This graph represents the main exposures to the United Nations Sustainable Development Goals. Exposure is defined as the opportunity, for each company, to contribute positively to reaching SDGs, providing their products and services. This exercise doesn't aim to measure the companies effective contribution to SDGs, which is computed through our societal contribution (CS) and net environmental contribution (NEC) metrics. A company may be exposed to several SDGs to varying degrees: strongly aligned, aligned, neutral, not aligned, or strongly not aligned. The methodology is based on data provided by MSCI. For more details, our annual SRI report is available in our ESG documentation.

No significant exposure : 66% % of companies with no exposure (neutral)
Non-alignment : 0% % of companies misaligned or strongly misaligned

ESG follow-up, news and dialogue

Dialogue and engagement

No comment

Keyence

We focused our discussion on the environmental performance of their products and on avoided emissions. Some clients are indeed requesting this data. No progress has been recorded since last year on the disclosure of data and targets relating to scope 3 emissions. We made several recommendations and suggested that Keyence take inspiration from their competitors.

ESG controversies

Microsoft

Microsoft is up against two controversies. In California, the company is mentioned in lawsuits filed against OpenAI, including allegations of fraud and a method for calculating damages considered doubtful by the judge, raising concerns over governance and integrity. In Nigeria, several platforms are under investigation, including Microsoft, for algorithmic discrimination, abuse of dominant position and harm to consumers, including data privacy and security issues.

Votes

6 / 6 voted general assemblies over the month. Details on our votes are available here the day following the company's AGM [Here](#).

ESG commentary

We are pursuing our engagement with Asian companies, notably Keyence and more recently, Eugene Technology.

Additional disclaimers: although the fund's performances are partly driven by the ESG indicators of portfolio holdings, these are not the sole determining factor. Marketing communication.
