Investment strategy

A selection of global responsible technology players

Sycomore Sustainable Tech invests in technology companies listed on international markets and employs an innovative SRI process. Stocks are selected with no regional or market capitalisation constraints. The ESG approach focuses on three dimensions: 1- "Tech for Good": for goods and services with positive social or environmental impacts; 2- "Good in Tech": for a responsible use of goods and services that will reduce negative externalities impacting individuals or the environment; 3-"Improvement Enablers": companies engaged in making progress in the two previous dimensions.

Performance as of 29.11.2024

Fund commentary

November was a strong month for the markets spurred by the U.S. election and the unwind of a large number of hedges put on pre-election. In tech, the theme was YTD laggards outperforming with software trading 18% higher on the month, while semis were roughly flat. For the fund, our best contributors to performance were Snowflake, MongoDB, Procore and Astera Labs while Workday, Intuit, Leeno, and Synopsys drove negative contribution to the fund. Going forward, we continue to like software over semis at the moment, however, are continuing to build interesting exposure on semi capital equipment and analog as we believe 2025 / 2026 investor expectations are too low for those more cyclical sub sectors.

SPICE, for Society & Suppliers, People, Investors, Clients, Environment is our tool for assessing a company's performance on sustainability criteria. This tool incorporates the analysis of economic, governance, environmental, social, and societal risks and opportunities covering both the company's daily operations and its product and service offer.

The analysis process covers 90 criteria and leads to a rating per letter. These 5 ratings are weighted based on the company's most material impacts*.

	Fund	Index
SPICE	3.6/5	3.5/5
S score	3.4/5	2.8/5
P score	3.5/5	3.2/5
I score	3.8/5	3.9/5
C score	3.9/5	3.6/5
E score	3.3/5	3.2/5

Environmental analysis

Net Environmental Contribution (NEC)

Degree of alignment of economic activities with the ecological transition, integrating biodiversity, climate and resources, on a standard scale from -100% for total misalignment to +100% for complete alignment, where 0% corresponds to the world economy average. The results are calculated by Sycomore AM or by the nec-initiative.org based on data for the years 2022 to 2024 according to NEC 1.0 or 1.1.
Coverage rate : fund 100% / index 92%

Temperature rise - SB2A

Induced average temperature increase by 2100 compared to pre-industrial times, according to the Science-Based 2°C Alignment methodology.
Coverage rate : fund 53%

*IPCC Sixth Assessment Report «Climate Change 2022: Mitigation of Climate Change». <https://www.ipcc.ch/assessment-report/ar6/>

Climate alignment - SBTi

Share of companies that have validated their greenhouse gas reduction targets with the Science-Based Targets initiative.

Carbon footprint

Annual greenhouse gas emissions (GHG Protocol) from upstream scopes 1, 2 and 3 per thousand euros invested, as modelled by MSCI.***
Coverage rate : fund 100% / index 99%

ESG scores

	Fund	Index
ESG*	3.4/5	3.2/5
Environment	3.3/5	3.2/5
Social	3.3/5	3.4/5
Governance	3.3/5	3.5/5

European taxonomy

Share of EU taxonomy-eligible company revenues provided by MSCI.

Coverage rate : fund 100% / index 99%

Fossil fuel exposure

Share of revenues from activities linked to fossil fuels from upstream to energy production, supplied by S&P Global.

Societal and social analysis

Societal contribution**

Contribution of the economic activity of companies to the resolution of major societal issues, on a scale from -100% to +100%.
Coverage rate : fund 100% / index 94%

Human rights policy **

Percentage of portfolio companies that have drawn up a Human Rights policy.
Coverage rate : fund 92% / index 89%

Staff growth

Cumulated growth in company headcounts over the past three financial years (data unadjusted in the event of acquisitions, excluding transformational deals).
Coverage rate : fund 91% / index 97%

Sources: portfolio companies, Sycomore AM, Bloomberg, Science Based Targets, Iceberg Data Lab, MSCI, Moody's, MSCI and S&P Global. Methodologies differ between issuers and between extra-financial data providers.*ESG-SPIICE correspondence: E=E, S=(P+S+C)/3, G is a sub-part of I, which represents 40%.**The fund has committed to outperforming the benchmark on these two indicators. The other indicators are shown for illustrative purposes.***Footprint allocated prorata to enterprise value, cash included .

Sustainable development goals exposure

This chart represents the main exposures to the United Nations Sustainable Development Goals and their 169 targets. Exposure is defined as the opportunity, for each company, to contribute positively to reaching SDGs, providing their products and services. This exercise doesn't aim to measure the companies effective contribution to SDGs, which is computed through our societal contribution (CS) and net environmental contribution (NEC) metrics. For each invested company, activities are analysed in order to identify those which are exposed to SDGs. For a same activity, its number of targets can vary between 0 and 2. The company target exposure to one of its activities is weighted by the revenue share gained from this activity. For more details, our annual SRI report is available in our ESG documentation.

No significant exposure : 4%

ESG follow-up, news and dialogue

Dialogue and engagement

Duolingo

We conducted a second round of engagement calls on tech, mental health and wellbeing with Duolingo. The company is responsive even though Duolingo's policies and practices did not evolve much compared to last year. We are currently awaiting feedback from the research team to pursue our engagement.

Palo Alto Networks

We initiated an engagement with Palo Alto on CEO remuneration. First, we encouraged Palo Alto to consider the CEO pay ratio (which stands at 735:1!). Second, we asked to disallow nearly maximum payouts in the CEO LTIP if one of the primary targets is not achieved and to include ESG KPIs. Finally, in the CEO STI, we asked to disclose performance goals weight, threshold and maximum and to replace the qualitative ESG modifier metrics by transparent quantitative ESG metrics.

ESG controversies

No comment

Votes

0 / 0 voted general assembly over the month.

Details on our votes are available here the day following the company's AGM [Here](#).
