A selection of listed and unlisted European companies supporting the creation of sustainable and inclusive jobs
Sycomore Inclusive Jobs is a socially responsible equity fund that invests in companies creating sustainable and inclusive jobs, based on Sycomore AM's analysis. The fund consists of 60% to 100% listed European stocks and 5% to 10% units of the Sycomore Impact Emploi By INCO FCPR. This FCPR, managed by INCO Ventures, invests in unlisted companies creating inclusive employment for people with difficult access to the job market. The selection of listed companies is based on a proprietary fundamental financial and non-financial analysis (the SPICE model), supplemented by a thematic approach. Within this framework, particular attention is paid to the creation of sustainable jobs, assessed in terms of their volume, quality, regional roots, and contribution to more inclusive growth.

Fund commentary

Equity indices have been impacted by the brutal rise in interest rates (France in particular). In this environment, the fund's relative performance did, however, benefit from our under-exposure to financials, despite the absolute losses generated after Bankinter and Banco Santander sold off. Deepening fears over AI had a moderate impact on the fund, which underweights technology, although STMicroelectronics, ASML and Prysmian rank among this month's leading detractors. We also initiated a position in Nokia after the stock pulled back by almost 50% from its annual highs. Indeed, the company has reported better-than-expected earnings, while its AI and Cloud-related orders have more than doubled over a year between July and September. Conversely, the fund has suffered from its under-exposure to energy, while crude oil prices remain particularly high.

The labels aim to guide investors in identifying sustainable and responsible investments. The composition of the management team is subject to change without notice.
