### Investment strategy

#### A selection of listed and unlisted European companies supporting the creation of durable, inclusive employment

Sycomore Inclusive Jobs is an inclusive equity fund that invests in companies creating durable, inclusive jobs, according to Sycomore AM's analysis. The fund invests 85 to 95% of its assets in listed European stocks and 5 to 10% in units of FCPR Sycomore Impact Emploi By INCO. The FCPR, managed by INCO Ventures, invests in unlisted companies and associations that are active in creating inclusive employment for people with difficult access to the job market. The main selection metric is the Good Jobs Rating, which employs three key factors to assess a company's contribution towards meeting job-related societal challenges: quantity, quality and geography. The companies in the portfolio must also operate activities aligned with the societal and environmental transitions.

### Fund commentary

Despite heightened geopolitical tensions at the start of the year (Iran, Venezuela, Greenland, Ukraine/Russia), stock market indices began 2025 on a positive trend, supported by macroeconomic indicators that came in rather better than expected both in the United States and Europe, with inflation seemingly under control. The fund outperformed during the period, lifted by our positive stock selection. In particular, Technogym and Danieli continued to enjoy their strong market runs initiated in 2025. We have strengthened our position in Michelin. The stock rose after the company announced a Free Cash Flow for 2025 largely above expectations, on account of strong capex discipline and working capital management. Finally, ASML is rallying on strong demand from memory players going forward (DRAM prices rising sharply) and on announcements by TSMC (investment plans for 2026 are 30% higher than they were in 2025). However, we have trimmed our position in Danone which is impacted by infant formula recalls.
