Investment strategy

A selection of listed and unlisted European companies supporting the creation of durable, inclusive employment

Sycomore Inclusive Jobs is an inclusive equity fund that invests in companies creating durable, inclusive jobs, according to Sycomore AM's analysis. The fund invests 85 to 95% of its assets in listed European stocks and 5 to 10% in units of FCPR Sycomore Impact Emploi By INCO. The FCPR, managed by INCO Ventures, invests in unlisted companies and associations that are active in creating inclusive employment for people with difficult access to the job market. The main selection metric is the Good Jobs Rating, which employs three key factors to assess a company's contribution towards meeting job-related societal challenges: quantity, quality and geography. The companies in the portfolio must also operate activities aligned with the societal and environmental transitions.

Fund commentary

Despite tensions in the Middle East rising sharply during the period, the fund proved highly resilient and outperformed by a wide margin in June, making up for its lag relative to the index since the start of the year. The fund benefited from the recovery posted by small and mid-caps - a segment that is currently overweight. German industrials continued to deliver strong returns, including Kion and Jungheinrich, both leaders in the forklift market and poised to continue benefiting from the transformation and automation of supply chains throughout the world. Clariane also continued the sharp rebound begun at the start of the year and has now more than doubled in value, notably following the sale of Petit-Fils at attractive multiples, which helped the balance sheet and demonstrated the value of the group's assets.
