Investment strategy

A selection of listed and unlisted European companies supporting the creation of durable, inclusive employment Sycomore Inclusive Jobs is an inclusive equity fund that invests in companies creating durable, inclusive jobs, according to Sycomore AM's analysis. The fund invests 85 to 95% of its assets in listed European stocks and 5 to 10% in units of FCPR Sycomore Impact Emploi By INCO. The FCPR, managed by INCO Ventures, invests in unlisted companies and associations that are active in creating inclusive employment for people with difficult access to the job market. The main selection metric is the Good Jobs Rating, which employs three key factors to assess a company's contribution towards meeting job-related societal challenges: quantity, quality and geography. The companies in the portfolio must also operate activities aligned with the societal and environmental transitions.

Fund commentary

Despite the robust earnings season overall, the enforcement of tariffs in Europe and the resurgence of political risk in France weighed on the market rally during the summer. The portfolio delivered positive returns, nonetheless, owing to the guidance upgrades for Prysmian and Poste Italiane at the end of August, which lifted these players during the month. The fund also benefited from the rebound posted by several renewable energy stocks (ERG, Solaria...). In contrast, Eiffage and Veolia - despite reporting earnings in line with expectations - suffered at the end of the period from their considerable exposure to French governmental decisions. We sold our position in Vonovia, which is no longer eligible to the fund, and introduced Fielmann. We took advantage of an entry point at the end of the period in the wake of the company's final H1 earnings publication and ahead of September's CMD, during which management will unveil the roadmap aimed at achieving the 2030 financial targets announced previously.
