A selection of listed and unlisted European companies supporting the creation of durable, inclusive employment

Sycomore Inclusive Jobs is an inclusive equity fund that invests in companies creating durable, inclusive jobs, according to Sycomore AM's analysis. The fund invests 85 to 95% of its assets in listed European stocks and 5 to 10% in units of FCPR Sycomore Impact Emploi By INCO. The FCPR, managed by INCO Ventures, invests in unlisted companies and associations that are active in creating inclusive employment for people with difficult access to the job market. The main selection metric is the Good Jobs Rating, which employs three key factors to assess a company's contribution towards meeting job-related societal challenges: quantity, quality and geography. The companies in the portfolio must also operate activities aligned with the societal and environmental transitions.

Fund commentary

Liberation Day rattled capital markets at the start of April, causing indices to fall sharply. However, Donald Trump's repeated turnarounds allowed investors to hope for a relatively pragmatic approach to tariffs, with a lower-than-feared impact for global economic growth. Our positioning, with strong market exposure to domestic plays - consistent with our investment philosophy - has shown great resilience in this environment and the fund closed the month higher. Its exposure to utilities, which played their defensive role fully, and to telecoms (Elia, Sécché, Inwit and Bouygues featured among top contributors) also proved favourable. We took advantage of higher volatility to selectively strengthen several plays that had sold off unduly in our opinion (ASML, Metso, Befesa...) or are able to withstand the economic war instigated by Donald Trump without suffering too much havoc (Danone, ID Logistics, Technogym, Vonovia...).
