Investment strategy

A selection of listed and unlisted European companies supporting the creation of durable, inclusive employment

Sycomore Inclusive Jobs is an inclusive equity fund that invests in companies creating durable, inclusive jobs, according to Sycomore AM's analysis. The fund invests 85 to 95% of its assets in listed European stocks and 5 to 10% in units of FCPR Sycomore Impact Emploi By INCO. The FCPR, managed by INCO Ventures, invests in unlisted companies and associations that are active in creating inclusive employment for people with difficult access to the job market. The main selection metric is the Good Jobs Rating, which employs three key factors to assess a company's contribution towards meeting job-related societal challenges: quantity, quality and geography. The companies in the portfolio must also operate activities aligned with the societal and environmental transitions.

Fund commentary

The ceasefire agreed on April 8th, and the current peace talks between the United States and Iran significantly eased investors' concerns, allowing European equity markets to rebound and wipe most of the losses recorded in March. In April, the fund extended its year-to-date outperformance thanks to robust stock picking within the technology sector, as stocks exposed to the semiconductor value chain continued to rally, lifting our positions in ASML and STMicroelectronics. The latter posted a 50% rebound after the company stated it was expecting to generate over \$500M in 2026 and over \$1 billion next year from AI and data centers. Multi-billion contracts signed at the beginning of the year with AWS and spanning several years added credibility to these targets. The strong momentum around electrification and data centers also supported Prysmian, while Befesa enjoyed a substantial rebound owing to high zinc and aluminium prices. We took advantage of the changes made to the fund's prospectus to initiate a few arbitrage trades (including the sale of Samse, Poujoulat and Amplifon).
