Investment strategy

A selection of listed and unlisted European companies supporting the creation of durable, inclusive employment

Sycomore Inclusive Jobs is an inclusive equity fund that invests in companies creating durable, inclusive jobs, according to Sycomore AM's analysis. The fund invests 85 to 95% of its assets in listed European stocks and 5 to 10% in units of FCPR Sycomore Impact Emploi By INCO. The FCPR, managed by INCO Ventures, invests in unlisted companies and associations that are active in creating inclusive employment for people with difficult access to the job market. The main selection metric is the Good Jobs Rating, which employs three key factors to assess a company's contribution towards meeting job-related societal challenges: quantity, quality and geography. The companies in the portfolio must also operate activities aligned with the societal and environmental transitions.

Fund commentary

The quarterly earnings season got off to a painful start in Europe as the two Eurostoxx 50 heavyweights - ASML and LVMH - underperformed sharply. The fund benefited in relative terms, as it is under-exposed to ASML and absent from LVMH. The slide in LVMH shares prompted wider weakness across the luxury sector, which continued to suffer during the period. However, the fund is only exposed to Hermès, which is proving to be highly resilient and continued to deliver two-digit organic growth in Q3. In contrast, despite the ECB's additional rate cut, the fund was impacted by a new slump for the renewables sector with ERG, Solaria and EPD R posting double-digit losses (the latter is suffering from weak growth in power generation due to lower charging rates in Brazil and commissions concentrated at the end of the year). Pressures on net interest income weighed on the earnings reported by Bankinter. However, the group's robust fundamentals and the bank's low sensitivity to declining interest rates convinced us to strengthen our exposure after the premium relative to the sector fell substantially in recent years.

Derichebourg

We engaged with Derichebourg on governance issues, as part of the Club SMID. We made several recommendations to the company, including: to clarify the main skills viewed as essential for the correct running of the Board, to communicate on the individuals/committees responsible for top management succession plans, and to improve transparency and requirement levels on the criteria (financial and ESG) applied to executive compensation plans

Siemens

We had an insightful discussion with Siemens and the 30% Club Germany on gender diversity with their Head of DEI. The company seems to be taking appropriate steps to diversify its workforce durably such as driving accountability and involvement at all levels of the organisation and particularly at the local CEOs level, who are in charge of defining their local targets. We recommended Siemens to publish granular information and context along with its global gender pay gap next year.
