### Investment strategy

#### A selection of listed and unlisted European companies supporting the creation of durable, inclusive employment

Sycomore Inclusive Jobs is an inclusive equity fund that invests in companies creating durable, inclusive jobs, according to Sycomore AM's analysis. The fund invests 85 to 95% of its assets in listed European stocks and 5 to 10% in units of FCPR Sycomore Impact Emploi By INCO. The FCPR, managed by INCO Ventures, invests in unlisted companies and associations that are active in creating inclusive employment for people with difficult access to the job market. The main selection metric is the Good Jobs Rating, which employs three key factors to assess a company's contribution towards meeting job-related societal challenges: quantity, quality and geography. The companies in the portfolio must also operate activities aligned with the societal and environmental transitions.

### Fund commentary

Volatility was high at the start of the year, with markets trending upwards overall but later disrupted by Donald Trump's inauguration and initial announcements, and by the news flow on DeepSeek, which could potentially shake up the world of AI. The fund remains heavily impacted by its overexposure to small and mid-caps which continue to lag the broader market, notably due to further upward pressure on 10-year yields. Detractors to performance included Elia, pending the capital increase to fund the group's capex plans, and the Puma group, which reported disappointed growth and poor operational leverage. In this environment, we introduced new positions in Air Liquide, Danone, Vonovia and Metso to reduce the fund's small and mid-cap bias.
