## Investment strategy

### A selection of listed and unlisted European companies supporting the creation of durable, inclusive employment

Sycamore Inclusive Jobs is an inclusive equity fund that invests in companies creating durable, inclusive jobs, according to Sycamore AM's analysis. The fund invests 85 to 95% of its assets in listed European stocks and 5 to 10% in units of FCPR Sycamore Impact Emploi By INCO. The FCPR, managed by INCO Ventures, invests in unlisted companies and associations that are active in creating inclusive employment for people with difficult access to the job market. The main selection metric is the Good Jobs Rating, which employs three key factors to assess a company's contribution towards meeting job-related societal challenges: quantity, quality and geography. The companies in the portfolio must also operate activities aligned with the societal and environmental transitions.

### Fund commentary

With markets deeply impacted by the outbreak of the war in Iran, the fund fell by around 10% in March, in line with its benchmark. Veolia corrected, although the Middle East only accounts for 1.2% of its Ebitda and 0.9% of employed capital, and the group seems rather immune from inflationary pressures. Despite rumours of takeovers by Brookfield and Ardian, Inwit fell sharply after its guidance was revised downward owing to tense trade talks with Swisscom and Telecom Italia, after both companies stated they would put an end to the framework agreements that bind them with the telecom tower operator. Poste Italiana also fell back after announcing its intention to buy out Telecom Italia. While the deal should quickly become accretive and help boost growth, it also carries operating risks and could weigh on shareholder return.
