A selection of listed and unlisted European companies supporting the creation of durable, inclusive employment

Sycomore Inclusive Jobs is an inclusive equity fund that invests in companies creating durable, inclusive jobs, according to Sycomore AM's analysis. The fund invests 85 to 95% of its assets in listed European stocks and 5 to 10% in units of FCPR Sycomore Impact Emploi By INCO. The FCPR, managed by INCO Ventures, invests in unlisted companies and associations that are active in creating inclusive employment for people with difficult access to the job market. The main selection metric is the Good Jobs Rating, which employs three key factors to assess a company's contribution towards meeting job-related societal challenges: quantity, quality and geography. The companies in the portfolio must also operate activities aligned with the societal and environmental transitions.

Fund commentary

Despite the framework agreement signed by Iran and the United States aimed at ending the conflict, small and mid-cap indices corrected rather sharply during the period. Investors had, however, broadly anticipated the easing of these tensions and markets rallied over the past few weeks. While the fund benefited from its under-exposure to energy, which corrected in the wake of declining oil prices, it suffered from its over-exposure to smaller caps, which lagged during the month, and from its under-exposure to banking stocks after their strong rebound. Poste Italiane stood out as the fund's leading contributor to performance in June and we have taken some profits on the stock. We are also locking in profits on ASML and STMicroelectronics, which remain driven by capex in the AI value chain and have delivered high monthly returns, despite some concerns over potential over-valuation around the AI theme which began to weigh on a few players towards the end of the period.
