Investment strategy

A responsible selection of that address today's social challenges.global companies

Sycamore Global Social Impact invests in companies that have a positive impact with regard to social issues, such as those highlighted by the United Nations' Sustainable Development Goals. We are convinced that companies that meet current social challenges are the most likely to generate sustainable operational and financial performance. Stock selection is based on a rigorous fundamental analysis that integrates sustainable development issues with a strong social dimension. This analysis is based on our SPICE model and our proprietary metrics associated with the different stakeholders that make up society (Consumers, Employees and Communities): the Social Contribution, the Happy@Work rating and the Good Jobs Rating. The investment universe is global, with no restrictions on capitalisation size.

Fund commentary

The fund registered a solid performance, above that of its benchmark, with a combination of positive selection and allocation. By sector, financials contributed more positively, thanks to our holdings in Progressive, Intesa Sanpaolo and Munich Re, all supported by releases positively surprising consensus expectations. Selection in the communication services space was outstanding, helped by the lack of exposure to some non-eligible high sector weights (such as Meta and Alphabet) and by the higher exposure to telecom that displayed a better resilience in an increasingly uncertain macroeconomic picture, with in particular T-Mobile rising strongly supported by the favorable momentum after the publication of results at the end of January. Finally, in discretionary, the strong publication of Moncler in luxury and the lack of exposure to automotive were accretive to returns. All these more than compensated a negative contribution from industrials, suffering rumors on DC capex delays by Microsoft (relevant for Vertiv, Eaton, Schneider) or concerns on the state of the US economy (relevant for United Rentals). The positioning of the portfolio was not substantially changed during the month.

SPICE, for Society & Suppliers, People, Investors, Clients, Environment is our tool for assessing a company's performance on sustainability criteria. This tool incorporates the analysis of economic, governance, environmental, social, and societal risks and opportunities covering both the company's daily operations and its product and service offer.

The analysis process covers 90 criteria and leads to a rating per letter. These 5 ratings are weighted based on the company's most material impacts*.

	Fund	Index
SPICE	3.7/5	3.3/5
S score	3.4/5	2.8/5
P score	3.8/5	3.2/5

ESG follow-up, news and dialogue

Dialogue and engagement

Allianz

We discussed human capital issues with Allianz. We recommend that Allianz develop a more formalized approach and communicate on how it intends to use new technologies and artificial intelligence across the Group's different divisions and on its plans to support and train its workforce.

Siemens

We held discussions with the company ahead of its shareholders' meeting. During these talks, we addressed the restructuring of its Digital Industries branch. We have encouraged the company to disclose more information, for example, the percentage of employees reskilled and the percentage redeployed in-house.

ESG controversies

Veolia

A dispute with Veolia over the non-recognition of members of the Unite trade union in the UK has led to industrial action.

Iberdrola

The United Kingdom's Competition and Markets Authority has launched a probe into potential antitrust issues following the £2.1bn deal for the acquisition of North West Electricity Networks by Iberdrola.

Votes

0 / 0 voted general assembly over the month.

Details on our votes are available here the day following the company's AGM [Here](#).
