Investment strategy

A responsible selection of global companies that address today's social challenges

Sycamore Global Social Impact invests in companies that have a positive impact with regard to social issues, such as those highlighted by the United Nations' Sustainable Development Goals. We are convinced that companies that meet current social challenges are the most likely to generate sustainable operational and financial performance. Stock selection is based on a rigorous fundamental analysis that integrates sustainable development issues with a strong social dimension. This analysis is based on our SPICE model and our proprietary metrics associated with the different stakeholders that make up society (Consumers, Employees and Communities): the Social Contribution, the Happy@Work rating and the Good Jobs Rating. The investment universe is global, with no restrictions on capitalisation size.

Performance as of 29.11.2024

Fund commentary

The month of November was characterized by the US election, the market was surprised by the size of the victory of the Republicans and reacted with a strong rally. We have positioned the fund to minimize the risk of election, which helped the strategy to perform in line with the relevant index that was up more than 6% in euro terms. In terms of stock picking the fund benefited from its long positions in Cyberark (cybersecurity), Deere (machinery for agriculture and construction) and Duolingo (application to learn languages), all three reported strong results. In the case of Deere it looks that the outlook for 2025 is now de risked and we decided to increase the position. During the month we also increased exposure to companies that would not be affected by new potential US regulations and companies that benefit from the move in the US\$.

SPICE, for Society & Suppliers, People, Investors, Clients, Environment is our tool for assessing a company's performance on sustainability criteria. This tool incorporates the analysis of economic, governance, environmental, social, and societal risks and opportunities covering both the company's daily operations and its product and service offer.

The analysis process covers 90 criteria and leads to a rating per letter. These 5 ratings are weighted based on the company's most material impacts*.

	Fund	Index
SPICE	3.7/5	3.3/5
S score	3.5/5	2.8/5
P score	3.9/5	3.1/5
I score	3.9/5	3.6/5

ESG follow-up, news and dialogue

Dialogue and engagement

Duolingo

We conducted a second round of engagement calls on tech, mental health and wellbeing with Duolingo. The company is responsive even though Duolingo's policies and practices did not evolve much compared to last year. We are currently awaiting feedback from the research team to pursue our engagement.

T-Mobile

As part of the Tech & Mental Health coalition, we recommended that the company implements mechanisms/practices to report harmful content and communicates about them. We would also welcome that the company publicly discloses metrics that they collect internally such as subscriber penetration rate, customer satisfaction rates of apps in stores, surveys, etc. T-Mobile is willing to improve on its Tech & Mental health initiatives. We aim to continue our engagement with them in 2025.
