Investment strategy

Sycoyield 2026 is a maturity fund seeking yield opportunities in the bond markets. It invests mainly in high-yield corporate bonds issued in euros, with a maturity date mainly in 2026 and which are intended to be held until their maturity.

Fund commentary

Long-term € rates suffered from tensions during the month which accentuated the steepening of sovereign yield curves. Investors are concerned over the magnitude of public bond issuance in 2026 on account of the large fiscal deficits expected in both France and Germany. As planned, the ECB left its rates unchanged. The market is expecting short-term rates to remain stable over the next twelve months. In France, the Parliament finally agreed on the social security budget for 2026, allowing the French risk premium to retreat. Credit spreads eased across all segments as the primary market naturally dried up at the end of the month. This caused HY indices to outperform Investment Grade by a wide margin - the latter are in negative territory.
