### Investment strategy

#### A selection of stocks from the eurozone with small and medium capitalisation

Sycamore Sélection Midcap seeks to outperform the MSCI EMU Smid Cap Net Return Index (dividends reinvested) over a minimum investment horizon of five years, by investing primarily in companies headquartered in European Union member states with a market capitalisation of less than €15 billion. With 60% to 100% exposure to EU equities, the fund focuses specifically on the small and mid-cap segment, with no sector constraints. Our ESG exclusion and selection methodology is fully integrated into our fundamental analysis of companies.

### Fund commentary

Equity investors appeared undaunted by rising sovereign yields in Europe and potential inflationary pressures, as markets continued to rally on expectations of a durable peace agreement between the United States and Iran. Jenoptik ranked among top performers on the back of a robust earnings publication, and importantly, an exceptional order intake of €357 million - up by 74%. Brembo also beat earnings expectations in Q1; the company raised its growth targets to +3% and kicked off the mass production of its latest generation braking system, Sensify. Turning to detractors, despite a robust Q1, Trigano issued a slightly more cautious outlook owing to the declining number of registrations in April and rather more sluggish demand from distributors overall.

## ESG follow-up, news and dialogue

### Dialogue and engagement

#### Elis

During the ODDO ESG forum, we discussed ESG priorities with Elis. The company presented the closure of its 2025 targets and unveiled its new targets for 2030, as well as its research work on the energy mix and scope 4 emissions. We also addressed human capital issues. Elis has developed firm commitments in this area (limited short-term contracts, focus on training and staff retention) but there is room for improvement on training (follow-up and monitoring).

#### Virbac

As part of the SMID Club, we spoke to Virbac about its corporate governance practices. The company has made progress in terms of remuneration, but improvements are still needed in terms of transparency. The discussion also covered the composition of the Board, the dissociation of votes on discharge and accounts, and the progress of the transition plan, particularly with regard to scope 3.
