Investment strategy

A selection of stocks from the eurozone with small and medium capitalisation
Sycomore Sélection Midcap seeks to outperform the MSCI EMU Smid Cap Net Return Index (dividends reinvested) over a minimum investment horizon of five years, by investing primarily in companies headquartered in European Union member states with a market capitalisation of less than €15 billion. With 60% to 100% exposure to EU equities, the fund focuses specifically on the small and mid-cap segment, with no sector constraints. Our ESG exclusion and selection methodology is fully integrated into our fundamental analysis of companies.

Fund commentary

Although equity indices have been impacted by the brutal rise in interest rates (France in particular), Small & Midcaps outperformed larger caps by a wide margin in the Eurozone, notably owing to their lower exposure to financials. During the period, several industrial stocks weighed on performance, including Cenergy, caught up in the AI-related correction, and Atalya, affected by weakness in the mining sector. By contrast, ASR Nederland and Tryg rose on analyst upgrades and robust operating results. Similarly, the fund's exposure to consumer staples also supported performance.

Sustainable development goals exposure

This graph represents the main exposures to the United Nations Sustainable Development Goals. Exposure is defined as the opportunity, for each company, to contribute positively to reaching SDGs, providing their products and services. This exercise doesn't aim to measure the companies' effective contribution to SDGs, which is computed through our societal contribution (CS) and net environmental contribution (NEC) metrics.
A company may be exposed to several SDGs to varying degrees: strongly aligned, aligned, neutral, not aligned, or strongly not aligned. The methodology is based on data provided by MSCI.
For more details, our annual SRI report is available in our ESG documentation.

No significant exposure : **61%** *% of companies with no exposure (neutral)*
Non-alignment : **29%** *% of companies misaligned or strongly misaligned*
