Investment strategy

A selection of stocks from the eurozone with small and medium capitalisation

Sycamore Sélection Midcap seeks to outperform the MSCI EMU Smid Cap Net Return Index (dividends reinvested) over a minimum investment horizon of five years, by investing primarily in companies headquartered in European Union member states with a market capitalisation of less than €15 billion. With 60% to 100% exposure to EU equities, the fund focuses specifically on the small and mid-cap segment, with no sector constraints. Our ESG exclusion and selection methodology is fully integrated into our fundamental analysis of companies.

Fund commentary

The ceasefire agreed on April 8th, and the current peace talks between the United States and Iran significantly eased investors' concerns, allowing European equity markets to rebound and wipe most of the losses recorded in March. The industrial sector was the main contributor to the fund's performance in April, thanks to our sector overweight and stock picking. Top contributors included R&S Group, the leading provider of power transformers - critical to the expansion of grids in Europe - after the Swiss company reported robust earnings. Befesa also posted a sharp rebound as high zinc and aluminium prices lift the company's earnings. April highlights also included Virbac, after the company reported organic growth of 7.7% in Q1 2026, the upper end of its annual target of 5.5% to 7.5%.

ESG follow-up, news and dialogue

Dialogue and engagement

Veolia

As part of the Just Transition initiative coordinated by FIR, a second exchange with Veolia provided an opportunity to delve deeper into just transition issues identified as material for the group. Based on a preliminary analysis of the company's recent publications, the discussion focused on social dialogue, the reconversion of coal-fired power plant workers, the integration of informal workers, subcontracting and the automation of sorting.
