Investment strategy

Sycomore Opportunities is a feeder fund of Sycomore Partners (Master Fund) and invests at least 95% of its net assets in "MF" units of its Master Fund and up to 5% in cash.

Sycomore Partners, a concentrated stock picking fund whose exposure to equities may range between 0 and 100%. The fund aims to achieve superior returns over a minimum investment horizon of five years by applying a thorough stock selection process based on the fundamental, in-depth analysis of European and international stocks, incorporating strict ESG criteria. In addition, the fund's exposure to stock markets is managed according to an opportunistic and discretionary approach. The fund seeks to exclude companies displaying significant ESG risks and focuses on those driven by sustainability considerations and that appear clearly committed to shifting towards more sustainable economic models.

Performance as of 29.05.2026

Fund commentary

Markets extended their rebound in May despite the mixed environment. The positive earnings momentum, AI and related infrastructure capex drove equity markets higher, while tensions around the Strait of Hormuz, long-term rates, and inflation fuelled underlying volatility. The fund rose thanks to its exposure to technology stocks and beneficiaries from AI and electrification-related capex. Infineon and Prysmian were the main performance drivers, thanks to robust demand from hyperscalers, semiconductor companies and energy players. Conversely, GDS and Eaton weighed on performance, despite their robust fundamentals. Considering the uncertain outcome of current peace negotiations, we have continued to manage our equity allocation tactically at around 50%, with adjustments made via derivatives: beta is lowered in periods of caution, then raised when the market scenario turns more favourable. In terms of portfolio activity, we have continued to diversify our holdings outside of pure AI, by strengthening Novonesis and Thales. These stocks add exposure to industrial and environmental growth drivers and offer strong visibility and superior business models.

SPICE*, for Society & Suppliers, People, Investors, Clients, Environment is our tool for assessing a company's performance on sustainability criteria. This tool incorporates the analysis of economic, governance, environmental, social, and societal risks and opportunities covering both the company's daily operations and its product and service offer.

The analysis process covers 90 criteria and leads to a rating per letter. These 5 ratings are weighted based on the company's most material impacts.

	Fund	Index
SPICE	3.6/5	3.4/5
S score	3.4/5	3.2/5
P score	3.7/5	3.6/5
