Investment strategy

Sycomore Opportunities is a feeder fund of Sycomore Partners (Master Fund) and invests at least 95% of its net assets in "MF" units of its Master Fund and up to 5% in cash.

Sycomore Partners, a concentrated stock picking fund whose exposure to equities may range between 0 and 100%. The fund aims to achieve superior returns over a minimum investment horizon of five years by applying a thorough stock selection process based on the fundamental, in-depth analysis of European and international stocks, incorporating strict ESG criteria. In addition, the fund's exposure to stock markets is managed according to an opportunistic and discretionary approach. The fund seeks to exclude companies displaying significant ESG risks and focuses on those driven by sustainability considerations and that appear clearly committed to shifting towards more sustainable economic models.

Fund commentary

In April 2025, capital markets were rattled by "Liberation Day" and its implications. After an initial panic that caused stock markets to tumble, new trade negotiations eased investors' fears, and the market recovered. The equity portfolio held up well thanks to its exposure to sectors rather immune to tariffs (utilities and real estate). Stock selection was also helpful to performance, notably via our positions in Banco Santander, Eli Lilly and Intuitive Surgical. The fund's equity exposure was adjusted dynamically within a range of 50 to 60% to capitalise on volatility. After some profit taking at the end of the month, the fund's exposure stood at 54% at the close of the period. During the panic stage, we either strengthened companies exposed to the German recovery plan (Infineon, Bilfinger) or cyclical companies that sold off excessively (Société Générale). Conversely, we sold TSMC to lower geopolitical risk within the portfolio and to reduce our global exposure in favour of Europe.

SPICE, for Society & Suppliers, People, Investors, Clients, Environment is our tool for assessing a company's performance on sustainability criteria. This tool incorporates the analysis of economic, governance, environmental, social, and societal risks and opportunities covering both the company's daily operations and its product and service offer.

The analysis process covers 90 criteria and leads to a rating per letter. These 5 ratings are weighted based on the company's most material impacts*.

	Fund	Index
SPICE	3.6/5	3.4/5
S score	3.6/5	3.2/5
