Investment strategy

Sycomore Opportunities is a feeder fund of Sycomore Partners (Master Fund) and invests at least 95% of its net assets in "MF" units of its Master Fund and up to 5% in cash.

Sycomore Partners, a concentrated stock picking fund whose exposure to equities may range between 0 and 100%. The fund aims to achieve superior returns over a minimum investment horizon of five years by applying a thorough stock selection process based on the fundamental, in-depth analysis of European and international stocks, incorporating strict ESG criteria. In addition, the fund's exposure to stock markets is managed according to an opportunistic and discretionary approach. The fund seeks to exclude companies displaying significant ESG risks and focuses on those driven by sustainability considerations and that appear clearly committed to shifting towards more sustainable economic models.

Fund commentary

Macron's decision to dissolve the French Parliament triggered a sell-off in the French stock market. The fund was deeply impacted, notably via its positions in Société Générale, Worldline, Orange, Peugeot Invest and TF1. These stocks plunged over 10% while the European market posted a very modest decline. The fund's exposure to the Utilities sector (RWE, Enel and EDP) also weighed on performance in a rising rate environment. We marginally lowered our equity exposure with the sale of three French stocks: Société Générale, Eramet and Imerys. The fund is highly concentrated, with a Value and France bias. However, only two positions - TF1 and Orange - are specifically exposed to France.
